TEN CENTS A WEEK

CONGRESS

**Will Not Adjourn This Week
Because of Strike Controversy**

MAY ASK FOR NEW LAWS

Hope for Settlement By Direct Negotiations Abandoned and President Will, In All Probability, Go Before Congress Wednesday to Request New Laws to Prevent Strike

(ASSOCIATED PRESS TELEGRAM)
Washington, Aug. 28.—President Wilson's plan for breaking the deadlock between the railroads and their employees, as discussed in conference today was as follows:
An eight-hour law for railroads to become effective at a date far enough in the future to give the railroads opportunity to prepare for it. The law patterned after the Canadian act which creates a commission of investigation and prevents lockouts or strikes while an industrial dispute is being investigated.

This plan was discussed by the President with his party leaders in congress as the basis for the next step after the railroad managers have formally announced their refusal to accept the plan of settlement the President previously proposed. They were expected to do this at the White House conference.

Meanwhile congress leaders gave up hope of adjournment this week and settled down to stay here as long as necessary to proving legislation to meet the strike situation.

While the President has finally given up hope of bringing about an agreement through direct negotiations he is going forward with his preparations for going before congress with his plan for legislation. The President, it was said today, had repeatedly shown a willingness to consent to any plan which would include the principle of the eight-hour day and has stood ready to submit to the railroad employees any plan suggested by the executives which had a possibility of acceptance.

The railroad executives have based their objections to the President's plan on the ground that the entire controversy should be submitted to arbitration. It was understood today that many proposals of different form have been presented to the railroad executives through the whole house but they have been met with the statement that the road will not arbitrate the whole controversy.

If all the negotiations fail and the President goes before congress probably tomorrow or Wednesday, it is said he will reveal the details of all the negotiations in his address and his plan for legislation.

At 2:30 o'clock the sub-committee of eight executives composed of the Messrs. Holden, Ripley, Willard, Smith, Atterbury, Harrison, Trumbull and Lovett went to the White House to confer with President Wilson. It was not known then certain that they would present the formal reply to his plan they had prepared.

GOV. WILLIS MAKES INVESTIGATION OF TAX SITUATION

(ASSOCIATED PRESS TELEGRAM)
Columbus, Aug. 28.—Governor Frank B. Willis, is making an investigation of the tax situation in Franklin county. It was announced today, and until this is completed he will take no action in regard to the resignation of State Tax Commissioner James Boyle which resulted from the local controversy.

Mr. Boyle resigned last week following complaints of the action of Franklin county tax authorities who are said to have arbitrarily raised the assessments of 15,000 taxpayers. The authorities said the increases were made after Mr. Boyle had informed them that such action would be legal.

WILLIS CONFERS OVER PLANS FOR FALL CAMPAIGN

(ASSOCIATED PRESS TELEGRAM)
Columbus, Aug. 28.—Governor Frank B. Willis, who has just returned from a speaking tour in Maine, today conferred with Charles Hatfield of Bowling Green, chairman of the new republican executive, concerning fall campaign plans. The executive committee will meet in this city tomorrow afternoon to organize. Although the governor and Mr. Hatfield discussed the names of several men for the publicity and speakers' bureaus it was said no definite selection was made. Mr. Hatfield said there would be further discussion of men to be in charge of these bureaus at tomorrow's meeting.

CHILD KILLED; THROWN IN FRONT RAILROAD TRAIN

Clarksburg, W. Va., Aug. 28.—Cloy Hacker, 10-year-old son of Weston Hacker, of Weston, was instantly killed when he was thrown from the rear of a wagon on the track in front of a Baltimore & Ohio passenger train.

GOES TO JUNGLES WITH HER HUSBAND

Mrs. A. Hamilton Rice.

Dr. A. Hamilton Rice, the noted South American explorer, whose experiences in the jungles of the Orinoco and the Amazon have made many brave men shudder, is going to make another exploration into the untracked homes of blood-sucking insects and man-eating fishes, with his wife, who was formerly Mrs. George D. Widener, widow of George D. Widener, who went down on the Titanic.

ALL READY FOR OHIO TROOPS TO LEAVE TONIGHT

(ASSOCIATED PRESS TELEGRAM)
Columbus, Aug. 28.—Barrage of the Fifth regiment, O. N. G., was being loaded on trains today preparatory to the entrainment of the regiment for the south tomorrow. Officers at Camp Willis say the long stay of the Ohio troops in the mobilization camp here is near an end. Present orders are for the Fifth to go Tuesday as soon as all equipment is loaded. The Fourth regiment will entrain Wednesday and the Eighth Thursday.

Nothing but a sudden crisis in the threatened railroad strike will keep the troops home this time, officers say. Major Charles Miller, chief muster officer, says there is now nothing to prevent the movement of troops to the border.

The Fifth regiment, if it moves, will go to El Paso, Texas, by way of Cincinnati and New Orleans. All of the Ohio troops will be stationed at El Paso. The fourth is to go by way of Chicago and Kansas City and the Eighth through St. Louis and Fort Worth.

Europe Adopts Steam Power For New Submersibles

(ASSOCIATED PRESS TELEGRAM)
Washington, Aug. 28.—Information has reached the navy department that steam submarines are under construction in Europe closely resembling the 25 knot boats designed by the department a year ago. The navy general board disapproved the characteristics of the steam boats and congress was not asked to authorize any experimental construction.

Navy designers turned to steam propulsion for submarines to meet the requirements of the 1916 naval appropriation bill which specified that the three fleet subsurface boats provided for have a speed of at twenty knots an hour and if possible of 25. No private builder would undertake the construction of the craft when bids were advertised since they were unable to find sufficient horsepower in oil engines to give the boats the required speed.

The department experts had prepared the alternative design in which steam turbines supplied power for surface operations. They had no doubt that the boats would make 25 knots an hour, perhaps more, insuring that they would be the fastest boats of their kind afloat. Eighteen knots is maximum speed for submarines in the German and British navies.

The general board disapproved the design on the ground that the physical difficulties presented by the necessity of taking down a smoke stack would make the boats slow to submerge and an easy prey for enemy destroyers.

The Schley, first of the American fleet submarines, will not be completed for more than a year. She is expected to make twenty knots with oil engines, but builders have been so doubtful of the success of this undertaking that in the present bill the speed requirements were reduced somewhat. Two more boats of the Schley type have been authorized by congress.

HAIL RUINS CROPS.

Gallipolis, O., Aug. 28.—A terrific hail and rain storm passed over Gallia county, Ohio, and Mason county, West Virginia, last night doing thousands of dollars worth of damage to tobacco and apple crops. Many barns were blown down and several small bridges were washed out.

BALKAN

Developments Outshadows News From Other Fronts in the War

BAD WEATHER IN FRANCE

Operations Along Somme and at Verdun Are Interfered With By Storm—Germany Announces New Campaign Along Hungarian-Rumanian Frontier Soon After Declaration

Rumania has entered the war with the entente allies. Official announcement is made at Berlin that the existence of a state of war with Austria-Hungary was proclaimed in Bucharest yesterday evening.

No indications have been received thus far of the immediate effect on the military situation in the Balkans, which now becomes of preponderant importance or of the moves doubtless already inaugurated by Rumania and by her opponent which has been making preparations for this eventuality. It is to be expected Rumania will follow a plan of campaign mapped out by the high council of the entente powers whether against Austria-Hungary or Bulgaria or both. An indication that Rumania moved in accordance with a predetermined plan of the entente allies is found in the fact that her declaration of war was made on the same day as Italy's declaration against Germany. The official announcement from Berlin adds the information that on receipt of the news of Rumania's action the federal council was called for an immediate session. This may forecast a declaration of war by Germany against Rumania. The constitution of the German empire stipulates that the emperor may declare war if defensive but when war is not merely defensive he must have the consent of the bundesrath or federal council.

Dispatches from Athens indicate that popular feeling is stirred deeply by occupation of Greek territory by Bulgarian forces although this move was sanctioned by the Greek government. Fifty thousand Greeks joined in a popular demonstration yesterday before the residence of former Premier Venizelos, an ardent supporter of the entente allies.

The former premier urged that a committee be sent to King Constantine to warn him not to use his influence in the forthcoming general elections because the results would be "destructive" and to request him to give the present government, which favors a policy of neutrality full political authority, at the same time preparing the army for a "possible rupture of existing conditions."

Little information is released by the censors in regard to the campaign on the Macedonian front. The Bulgarians, claiming consistent gains on the western end of the line, are lengthening the front and pushing into Albania. An official announcement made in London today refers only to scattered artillery actions.

Bad weather is interfering with operations on the Somme front. Before Verdun the Germans returned to the attack last night. Paris reports that several assaults on French positions at Fleury were repulsed.

Rumania's declaration of war against Austria was followed swiftly by military action. The official German announcement of today indicated that a new campaign, along the Hungarian-Rumanian frontier is under way. The statement says Rumanians have been taken prisoners on the frontier.

War Department Orders Ohio Boys to Mexican Border

Washington, Aug. 28.—National guard troops of Ohio, Kentucky and Vermont, now in mobilization camps were today ordered to the Mexican border.

War department officials said no particular significance was attached to the movement of the troops. Sometime ago they were ordered to the border and when the railway strike situation became acute on General Funston's recommendation the order was suspended. Today's orders lifts the suspension.

The suspension of orders to guardsmen of all other states remaining in mobilization camps still stands, however, and no orders had been issued today for them to proceed.

IS MARRIED AT BEDSIDE OF HER DYING MOTHER

Columbus, Aug. 28.—While preparations were being made at the home of James Morrell for the marriage of his daughter, Mary, to Tullio Ricci on Thursday, the girl's mother became critically ill. Sunday it became evident that Mrs. Morrell could not live and she asked that the marriage ceremony be performed before she died. The ceremony was accordingly performed at the bedside and just ten minutes later the mother died.

Instead of the marriage ceremony taking place at the church on Thursday morning, the funeral will be held on Wednesday.

GERMAN LINER WILLEHAD WELCOMES U-BOAT BREMEN NEARING NEW LONDON

The Willehad in her dock at Boston.

The German liner Willehad, with several hundred tons of coal, has sailed from Boston through the Cape Cod canal, freshly provisioned and with a large crew, to serve as tender for the German U-boat Bremen and meet it at New London. The Willehad crept along the south shore to Sandwich and with its seventeen feet draught was able to negotiate the Cape Cod canal thence along Buzzard's Bay and into Long Island Sound without going beyond the three-mile limit at any point.

NIGHT HORSE SHOW FEATURE AT STATE FAIR

(ASSOCIATED PRESS TELEGRAM)
Columbus, Aug. 28.—The sixty-fifth Ohio state fair opened today, replete in every department with exhibitions of interest to residents of the state, with a program of road entertainment, an attractive race card, and a social feature added in a night horse show.

When the gates were opened at 8 o'clock this morning, practically every exhibit was in place and the fairgrounds were the mecca of streams of vehicles bearing thousands of people to the annual official gala event of the state.

The opening day is Ladies Day, with free admission to women.

Concerts by the Lower band and the Welston women's band opened the musical program of the week.

Judging was begun in the various departments today in order that prizes may be awarded early and the winners known to the visitors.

The race card of the week is scheduled to begin at 1:30 o'clock with today's matinee.

The vaudeville features and other free attractions were to be staged according to program. The first night horse show of the event will be held tonight with prominent society people holding reservations on many of the boxes.

A feature of the program tonight will be the unfurling of an American flag said to be the largest in existence.

LARGE FLEET IS ASSEMBLING AT SAN DIEGO BAY

(ASSOCIATED PRESS TELEGRAM)
San Diego, Calif., Aug. 28.—Fourteen United States war vessels are in San Diego harbor today, five cruisers, seven destroyers, one gun boat and a transport, comprising the largest fleet assembled here in months.

Most of the vessels recently have been withdrawn from Mexican waters, twelve having arrived from the south yesterday.

The cruiser South Dakota will sail some time today carrying approximately 150 volunteer civilians on a brief training cruise during which the men will be given a chance to handle the big guns in target practice.

Harry Flood, Howard's cellmate, made his way into the jail corridor when he was caught by Jailer McCaslin. He had several saws concealed on his clothing and had \$32 in his clothes, although he had but \$2 when arrested.

NEW WAR MOVE SHATTERS WHEAT PRICES IN PIT

(ASSOCIATED PRESS TELEGRAM)
Chicago, Aug. 28.—Rumania's declaration of war smashed the wheat market. Opening prices today showed a fall in some cases amounting to 3-4 cents a bushel, Sept. delivery, which closed Saturday at 1.51 3-4, started today at 1.46 to 1.48 1-2. Other options also broke wildly.

General rushes to sell took place, which increased by the increased chances of a general railway strike in the United States.

Before the descent of prices could be checked, losses that reached to 1-2 cents a bushel were shown for the principal trading month December, which sold as low as 1.45 1-2 as compared with 1.54 at Saturday's finish.

Notwithstanding that the tremendous pressure to unload holdings carried away for awhile all other considerations the extraordinary break in values proved too tempting for buyers to resist, and the market showed the consequence in rallies of 3 to 3 1-4 from the lowest level.

In the late dealings, weakness again became acute. Prices tumbled lower than before and closed demoralized 9 3-8c to 11 1-4c lower.

News that actual fighting between the Rumanians and the Teutons had already begun accompanied the final downturn in prices and made the trading at the finish a frantic whirl of excitement.

OHIO LUTHERANS WILL RE-ELECT COLUMBUS MAN AS PRESIDENT

Sandusky, O., Aug. 28.—The Lutheran synod of North America in session here, is holding its biennial election today. The retention of the president, Dr. C. H. L. Schuette, of Columbus, is predicted. Dr. Schuette is opposed to Rev. M. C. Heacht, of Dayton.

The synod Sunday accepted an offer of a site and a \$20,000 bonus and will erect the hospital and dispensary for which it made a \$100,000 appropriation last Thursday at Springfield, Minn.

Toledo Prepares To Fight Plague Asks \$40,000 Fund

Toledo, Aug. 28.—Most public institutions here are barring children to prevent further spread of infantile paralysis. The juvenile department of the public library and the boys' swimming pool in the Y. M. C. A. were closed today.

Few churches held Sunday school classes yesterday. The police have been asked to notify moving picture show managers to admit no children under 16.

Suburban schools are following the lead of the Toledo board of education to defer the opening of public schools at least until Sept. 18. The city council tonight will act on a proposed appropriation of \$40,000 to fight the disease. Four new cases and one death were reported today bringing the total number of recent cases up to 78 with 17 deaths.

RUMANIA CASTS HER LOT WITH THE ALLIES; ITALY AT WAR WITH GERMANY

Long Expected Action of Balkan Kingdom Involves Fourteenth Nation in Great Conflict—Crown Council Decides on Action at Sunday Session—Is Valuable Ally to Entente Powers Because of Geographic Position and Military Power

HALF MILLION TROOPS READY TO TAKE FIELD

With Italy's Declaration of War On Germany, Announced Sunday, New Activities Are Expected In Balkans—Rumania's Action Prompted By Desire For Expansion and Freedom of Four Millions of Her People From Austrian Authority In Bukovina—Russians Now Have Access to Balkans Without Long Sea Journey From Archangel.

(ASSOCIATED PRESS TELEGRAM)
Paris, Aug. 28.—Rumania declared war against Austria-Hungary last night, says a Havas dispatch from Berne Switzerland, which declares that the Wolff agency at Berlin made the official announcement. Rumania's decision to enter the war was reached at a meeting of the crown council held at Bucharest yesterday morning, says a Havas dispatch from Geneva.

The Wolff agency announces that the German federal council was convoked after the decision became known.

OTHER DECLARATIONS TO FOLLOW.

(ASSOCIATED PRESS TELEGRAM)
London, Aug. 28.—Germany probably will declare war on Rumania within 24 hours, after which Turkey and Bulgaria are expected to do likewise, according to a dispatch from The Hague to the Exchange Telegraph company.

FEDERAL COUNCIL CALLED.

(ASSOCIATED PRESS TELEGRAM)
Berlin, Aug. 28, via London, Aug. 28.—Rumania declared war on Austria-Hungary on Sunday evening, it is announced officially here.

The announcement follows: "The Rumanian government yesterday evening declared war on Austria-Hungary. The federal council has been convoked for an immediate sitting."

ITALY DECLARES WAR ON GERMANY.

(ASSOCIATED PRESS TELEGRAM)
Rome, Aug. 28.—Germany and Italy at last are at war. Italy had ended the anomalous situation that has existed for months by declaring that from Monday she considers herself the enemy of her former ally, Prussia.

Italy and Germany have been drifting steadily toward war and the declaration became inevitable when Italy recently sent troops to Saloniki to co-operate in the campaign of the entente allies on the Macedonian front. The formal declaration amounts to little more than the official recognition of the situation as it exists.

FIGHTING STARTS PROMPTLY.

(ASSOCIATED PRESS TELEGRAM)

Berlin, Aug. 28, via London.—Fighting has begun between Rumanian and Teutonic troops on the Transylvania frontier, the official announcement of today indicates. The statement says Rumanians have been taken prisoner.

GERMANY HAS DECLARED WAR ON RUMANIA.

(ASSOCIATED PRESS TELEGRAM)
Berlin, Aug. 28.—Germany has declared war on Rumania.

German federal council met this morning on receipt of the news of Rumania's declaration of war against Austria. The Rumanian legation in Berlin is being guarded by the police, these advisers say, as stones were thrown through the windows of the Italian embassy in Berlin yesterday.

(ASSOCIATED PRESS TELEGRAM)

London, Aug. 28.—Bucharest dispatches received yesterday stated that King Ferdinand of Rumania had convened a conference of representatives of all the leading political parties, former premiers, former presidents of the legislative chambers, ministers and government representatives, with the idea of ascertaining the views of all sections of public opinion.

The Wolff bureau, which makes the announcement that Rumania has cast her fortunes with the entente allies, is a semi-official German news agency which frequently is used as an avenue for making public official communications.

Rumania is the fourteenth nation to join the war. Her intervention either on the side of the entente allies or the central powers has been awaited with symptoms of concern by both sides. This is due not entirely to Rumania's military strength but also to the strategic advantage of her geographic position and the fact that her entry into the struggle opens to the Russian army a gateway through Rumania to attack the Bulgarians from the north, while the allied army having its base at Saloniki attacks them and their allies from the south.

Nevertheless, Rumania's military strength is by no means inconceivable. The country has a population of 8,800,000 and her army has been estimated at 580,000. It often has been described as one of the most thoroughly equipped and disciplined armies in Europe, but recent information from Bucharest has thrown some doubt upon its quality. Late this has been stated that Rumanian officers are ill-trained, and undisciplined, that Rumania has no heavy artillery and that its flying service

is inferior. Some advocates of Rumania's participation in the war have asserted that she could mobilize as many as 1,000,000 men. The mobilization of the army has been in progress for months and a few days ago was reported to be complete.

The motive which prompts Rumania to enter the war is the satisfaction of "her national aspirations," described by Take Jonescu, the Rumanian liberal leader, as the "policy of national instinct." Concisely, this means national expansion. In the southern half of Bukovina, the Austrian crownland, the Rumanians are the dominant race. The mass of the people of eastern Transylvania, a part of Hungary, is Rumanian by race and language. It is said 4,000,000 Rumanians live in Transylvania.

Rumania has been credited with a long cherished ambition to annex these provinces and at the same time "liberate" the Rumanians now under Austrian domination. Recently it was reported Russia had offered Carnowitz to Rumania as a reward if she would unite with the entente.

Rumania also covets Bessarabia, the extreme southwestern province of Russia, on the Black Sea, which was taken from her by the Berlin treaty of 1878. Reports have stated that Russia also has consented to restore to Rumania a war prize, with its population of 2,000,000, mostly Rumanians, and an area of 20,000 square miles. This, with Transylvania, would give Rumania a total population approaching 13,000,000 and, should all her aspirations be satisfied, a territory as great in area as that of England, Scotland and Wales. Rumania has a borderline as long as the whole Russian western war front on which to choose her point of military attack. In what direction only indicated by her desire to pour her troops through the passes of the Transylvanian Alps and the Carpathians into Transylvania. On the other hand, Austria has been accumulating military forces at Orsova prepared to attempt to force the "iron gates," where the Danube river touches the western Rumanian border. Bulgaria is said to have stationed 100,000 or more troops along the southern bank of the Danube to protect her northern frontier from a Rumanian invasion.

Apprehension in Germany that Rumania intends to permit a Russian army to march through her territory to attack the Bulgarians has been apparent for some time. Military authorities in Budapest assert that the chief factor for the consideration of the central powers is not the half million or more men of the Rumanian army but the opportunity offered for a new Russian invasion of Hungary. Rumania

MEN OF NEWARK

H. L. MADDOCK, CIVIL ENGINEER, 1903 NEWARK TRUST BUILDING came to this city 10 years ago, fresh from the University of Maine, where he received a diploma in engineering. Upon his arrival here he was for a time connected with the county surveyor's office, but later launched into business for himself.

He opened an office and immediately took his place among the construction planners of Ohio. While he has done considerable work in Newark, yet a great deal of his time has been taken up with out-of-town jobs. He does a great deal of street paving work, but very little contracting.

Mr. Maddock is a member of the Newark Masonic lodge, Rotary club and is also a Phi Gamma Delta.

CAMPAIGN PLANS READY TO LAUNCH AFTER CEREMONIES

(Associated Press Telegram)
New York, Aug. 28.—National Democratic leaders began to arrive here today in readiness for conferences which will precede the Wilson notification ceremony at Long Branch, next Saturday. The gathering of members of the national committee for the first time since the St. Louis convention will enable Chairman McCormick to canvass the political situation in all parts of the country and prepare campaign plans to be launched as soon as the President has made his speech of formal acceptance.

Detroit Bandits Get \$4,000 From the Standard Oil Co.

(Associated Press Telegram)
Detroit, Mich., Aug. 28.—Two auto bandits held up a Standard Oil collecting wagon on the Reckner road near Fort Dearborn, a Detroit suburb this afternoon. A report to the police said the robbers obtained \$4,000 and escaped.

EBEY SUFFERS INJURIES WHEN CAR OVERTURNS

(Associated Press Telegram)
Earl Lanning and L. Roscoe Ebey suffered injuries when an auto owned by Mr. Ebey overturned late last night near Reynoldsburg, O. Mr. Ebey who was driving the car turned off the road to avoid an obstruction and the car overturned. Mr. Ebey's collar bone was broken, his scalp cut and he received bruises over his body. Mr. Lanning was bruised but not seriously injured. The car was badly damaged. Mr. Ebey is resting easily at his home at 80 Front street.

HAILSTONES WERE LARGE AS EGGS IN WEST VIRGINIA

(Associated Press Telegram)
Leon, W. Va., Aug. 28.—Hailstones, declared by residents to have been as large as hen's eggs, and, which it is said, were found in heaps from 12 to 15 inches deep, shattered hundreds of windows during one of the most severe hail and wind storms in recent years in the Kanawha valley late yesterday.

Germans Repulse Attacks of Allies On Western Front

(Associated Press Telegram)
Berlin, Aug. 28, via London.—British and French troops made repeated attacks on the German positions last night in the region of the river Somme on the western front, says the official statement issued today by the German army headquarters staff. The attacks failed, the statement says, partly after hand-to-hand fighting and partly on account of the German counter attacks.

An English scientist, who has raised wheat in record-breaking time, explains that he so treats the seeds with electricity that he trebles the life force within it.

HAIL

STORM ACCOMPANIED BY LIGHTNING DOES MUCH DAMAGE NEAR GRANVILLE.

Live Stock Killed, and Crops Injured—Several Auto Accidents Result From Heavy Rains.

(Special to The Advocate)
Granville, Aug. 28.—During the terrific electric storm of Saturday, when hail stones cut the trees and the gardens and whitened the ground as with a heavy fall of snow, two valuable cows belonging to Mrs. Mayberry, who occupies the Dustin farm on North street, were killed by lightning, and a fine milk cow belonging to Mr. J. M. Palmer, the dairyman on Burg street, was also killed, probably by the same bolt, that made every one in town "jump" with nervousness. Four cattle belonging to two men in the Welsh hills were also killed at that time.

Two automobile accidents also were recorded in Tom Davis's garage to swell the week-end average of casualties. On the Alexandria pike, Saturday evening, at 8 o'clock, there was a head-on collision between a Cole driven by Mr. Daniel Clarke and a Ford driven by Mr. Sullivan Cullison, both of Alexandria. The big car carried eight passengers. The Ford was slightly over weighted with six. The fronts of both cars were badly damaged and they were left at the roadside until Sunday morning, when they were brought to the repair shop back of Wright's grocery. Strange to relate no one in either car was injured.

On Sunday morning about 10 o'clock another collision occurred, on College street, which escaped serious consequences only because the two cars were going at a moderate rate.

Mr. A. E. Wicklin of Zanesville in an Overland tried to turn out of a deep rut when about to meet a Ford but was unable to accomplish the feat before the impact. Mr. G. H. Hutton of Columbus, driver of the small car thinking the other was going to yield the road made no effort to turn out. The Overland was taken to the shop with broken lamps and a big hole in the radiator, but with the passengers unharmed. The Ford went humming on its way without a dent in its varnish.

The following letter received at the Denison office of the president, which Dr. Chamberlain found on his desk on his return from the east, speaks for itself:

Maracaibo, Venezuela,
July 26, 1916.
Denison University,
Office of the President,
Granville, Ohio.

Gentlemen:
I have to acknowledge the receipt of your letter of July 19, 1916, informing me that you have forwarded two copies of your catalog. I note that you have an unusual number of foreign students and that Spanish is taught in the college and that every facility will be offered to South American students.

I shall endeavor to use your catalog to the best advantage.
Very respectfully yours,
G. K. DONALD,
American Consul.

President and Mrs. C. W. Chamberlain entertained at dinner Saturday evening at their home on College Hill in compliment to Prof. and Mrs. David Dale Johnson of Morgantown, W. Va., who are guests of relatives in Granville for a few days.

Miss Ruth McKibben of Indianapolis who is finishing her vacation in Granville, was hostess at a delightful spread given at the Kappa Phi house Saturday afternoon in honor of Miss Helen Hunt of Boston. Resident Kappas and their house guests made up the party.

Miss Howland was elected chairman of the flower committee of the Social Union at the meeting last Friday afternoon. In place of Miss Esther Beers who resigned because of her contemplated move to Cleveland this fall. Both ladies received warm commendation for their work along this line.

Master Almon Wright was a visitor at the Homer centennial celebration last week and made the return trip to his home in South Cherry street last night at 9:30 entirely unaccompanied.

Miss Mamie Lloyd entertained in a most delightful way at her beautiful country home on the Columbus road Saturday afternoon in honor of Miss Grace Burdett Sinsabaugh. The house was artistically decorated with yellow roses and white asters. The girls were asked to write a wish for the bride-to-be. Some of the hostesses brought in a small tree full of blue birds each bearing in its bill one of these wishes. Each girl was given a bird, the wishes read and passed on to the honor guest.

Menus enough to last the new housewife many days were a source of fun and will no doubt prove quite useful. Miss Sinsabaugh was then invited into the next room to meet the "Needful family." These were Mr. and Mrs. Needful, Miss Needful, the twins, the cat, chicken and many others of this large family each gallily dressed for the occasion. The name will soon be changed to the "Useful family," as it was a kitchen shower.

Delicious refreshments reflecting the color scheme of yellow and white were served to Misses Sinsabaugh, Geach, Ware, Williams, Wright, Frank, Hamilton, Helen and Lois Lockhart, Ackley, Powell and Mrs. Sinsabaugh.

A busy young housewife whom everybody knows, has concluded that everything in life depends on the point of view. She says that on one of the hottest days last week when the mercury was performing record breaking stunts in high altitude, she greeted the ice man with: "Good morning. Isn't this terrible weather?" "Yes," he replied cheerfully. "It's fine!"

Miss Duke of Richmond, Va., is visiting at the home of her brother and sister, Dr. and Mrs. T. H. Lewis in Park drive, for ten days or two weeks.

A large and interested congregation enjoyed the closing union serv-

ices in the Methodist church last night and received inspiration and spiritual awakening from the powerful sermon preached by Rev. Dwight Wylie, D. D., of Philadelphia. Special music was contributed by Prof. Biefeldt, who played a violin selection and by Prof. and Mrs. E. P. Johnston in a duet. A fine musical service was given at the Baptist church in the morning by a large chorus choir, which sang Kotschmar's "Te Deum," with the Misses Beers as soloists, and by Mrs. E. P. Johnston who sang for the offertory Gounod's "There's a Green Hill."

The Shine Girl. 8-26-16

PRESBYTERIAN MINISTER DIES AT COLUMBUS

Columbus, Aug. 28.—Rev. Dr. John W. Day, aged 52, for the last six years pastor of the First Presbyterian church and prominent throughout Ohio for his activities in Christian work, died at 4:33 o'clock yesterday morning.

Rev. Dr. Day had been in poor health since early spring. Several weeks ago he was stricken with typhoid fever and was undergoing treatment for this at the hospital when he became afflicted with cancer of the stomach and intestines. It became apparent last week that Rev. Dr. Day could not live and he was taken to his home, where his family was with him when the end came.

As a race, the tallest people in the world are the Horobors of the southwest of Brazil. They average six feet four inches in height.

CASHMAN AUTO COLLIDES WITH CYCLE; RIDER DEAD

Mr. and Mrs. John J. Cashman, 80 North Fourth street, who recently returned from a visit with Mr. and Mrs. Lee Combs, at Piedmont, W. Va., tell of a thrilling accident which befell them, while motoring to Cumberland, Md.

Near the power plant of the Cumberland and Westernport Electric Company, the Ford machine, in which Mr. and Mrs. Cashman were riding with Mr. and Mrs. Combs, collided with a motorcycle. The driver of the motorcycle was thrown from his machine and received injuries which resulted in his death a short time later.

Mrs. Cashman, when the collision occurred, fainted with the Combs baby in her arms.

The party was examined by the sheriff of the county, who held that they were not responsible for the accident.

BARGE SPRINGS LEAK; BOAT AND CREW RESCUED

(Associated Press Telegram)
Cleveland, Aug. 28.—The steam barge Chickamunga, leaking fast and in sinking condition, signalled for help when five miles from Cleveland harbor early this morning and life savers rescued the twelve members of the crew. It was expected the barge, which had sprung a leak in Lake Huron, would sink any moment, but the tugs brought the boat safely into port.

Patmos and John the Apostle. The little island called Patmos has an entirely Greek population of 4,000, mostly sponge fishers, and although in close proximity to Turkey, no Turks dwell on the island and no mosque has ever been erected where John the Apostle was in the spirit on the Lord's day. The only export from Patmos, according to an old geographer who visited the island a hundred years ago, was at that time cotton stockings, which were sent to Venice.

The same authority adds that there were 300 churches on the island, which, seeing that the number of dwelling houses was only 700, suggests a rather handsome surplus of places of worship. The monastery in which the name of John the Divine is perpetuated is a massive building flanked by towers like a fortress, and the visitor is shown inevitably the grotto on the mountain in which it is claimed that John wrote his book. Over the grotto a small church has been erected. The isolation of the island gives a pathetic interest to John's description of the heavenly Jerusalem when there should be "no more sea."

Family Relations.
"Who is that man you were just talking with?"
"That's my brother-in-law."
"He looks enough like you to be your own brother."
"He is my own brother. We are twins."
"Twins? Then why did you say he was your brother-in-law?"
"Because he is. I have three brothers—one in law, one in medicine and one in the army."

SMART SMOKERS EVERYWHERE "ROLL THEIR OWN!"

Making Your Own Cigarettes With "Bull" Durham the Fad of the Year—It's Easy to Learn

Among smokers who know, it's the fashion to carry a sack of "Bull" Durham and a book of "papers" and deftly roll their own cigarettes.

The swift spread of this snappy custom has followed the discovery that in no other way can you obtain a cigarette so fresh, mild and satisfying.

"Bull" Durham is made of golden Virginia-Carolina leaf—the tobacco that made American cigarettes the most popular in the world. This wonderful "Bull" Durham leaf is cut into tiny flakes just the right size to roll quickly and easily into smooth, round cigarettes that are cool-burning and sweet.

Any man can get the knack of rolling cigarettes with "Bull" Durham in a very few trials. To help you learn, an illustrated booklet showing how will be mailed to any address in the U. S. on request. Address "Bull" Durham, Durham, N. C.

Get a 5c sack of "Bull" Durham today—ask for the free book of "papers" that goes with it—and start "rolling your own".

FATHER KEELTY HAS COUSIN HERE; DIED IN KENTUCKY

Rev. Father J. T. Keelty, 49, Dominican priest, died Sunday morning at Louisville, Ky., where he has been located.

Rev. Father Keelty is a cousin of Mrs. James Floyd of East Main street this city, and he was born in Zanesville. He was engaged in missionary work for several years and was for a time assistant pastor at St. Patrick's church Columbus.

Rev. Father Keelty is survived by five sisters, four of whom are nuns. Sister Costance of St. Mary's Academy, Shepards, Sister Cecilia who is teaching in Columbus and Sister Catherine who is teaching at Marietta. Sister Cecilia, taught in the local Catholic school for nine years. Another sister is Mrs. Joseph Sites of Columbus. The burial will take place at Somerset.

IF YOU ARE SICK SEE
DR. WEIST

Practice Limited

To chronic affections of the Head, Nose, Throat, Stomach, Liver, Bowels, as Indigestion, Dyspepsia, Biliousness, Constipation, Diarrhoea.

Blood, Heart, Skin, Rheumatism, Eczema, Pimples, Blood Poisoning, Bad Blood, etc.

Nerves, Spine, as Neuralgia, Headache, Sleeplessness, Dizziness, Nervous Exhaustion, Despondency, Loss of Memory, etc.

Home Treatment for Women
Dr. Weist's treatment for women does not include any humiliation. No operations, remedy is harmless and can be used privately. Consultation free and confidential.

Diseases of Men

Dr. Weist wants a private, heart to heart talk with every man who is weak, nervous, broken down, discouraged, or suffering from any disease caused by ignorance, excesses, contagion, incompetent treatment or neglect.

Why Consult Dr. Weist?

He has made regular monthly visits to this community for fifteen years, and has an established practice. His practice is limited to Chronic Diseases, and he has spent practically all his life in the study and treatment of them. His practice consists mainly of long-standing cases who have failed to get satisfaction elsewhere.

Remember

That Dr. Weist invites you to call and consult him and investigate his work and method of treatment and that he charges absolutely nothing for consultation and examination.

TALKING MACHINE MADE HERE HAS NEW FEATURES

Talking machines are now being manufactured in Newark, the product is one which unquestionably will have a ready sale, and the development of the industry seems assured. The machines are made by the Art Cabinet and Specialty Company recently incorporated with the following officers and directors, Harry Swisher, president; George Hayden, vice president; Charles W. Miller, secretary and treasurer; Dr. J. G. Shirer, Dr. W. H. Lewis and J. W. Rutledge.

The company has taken over the Scott Chair factory, later the Bader Brothers, at the corner of Indiana street and Boylston avenue, which has been equipped to produce at present ten completed machines per day, and the plant can rapidly be put in shape to increase this output as necessity requires.

A number of machines already have been sold and delivered, and this week a contract will be closed with a Muncie, Indiana, dealer to supply him with 100 each month, and it is expected that the factory soon will be kept running to capacity.

An Advocate reporter visited the factory Saturday afternoon with Secretary Miller, upon whose inventions and patents the machines are being made. Mr. Ketting is the general manager and superintendent and at once impresses upon one the facts that he is thoroughly conversant with every detail of the business, and that he is enthusiastic over the possibilities of the new product. The features of superiority claimed for the Newark machine are manifold.

A technical description hardly could convey a proper idea of the merits of the Ketting devices, and only an actual demonstration would suffice so to do.

The cabinets are finished in three sizes in either oak or mahogany, and are beautiful in design and workmanship. The larger machines are the same size as the largest of other standard makes, and will retail for \$95. Another size sells for \$70 and the smallest for \$50.

In the first place the "Ideal" will play any make of disc record on the market without any change of the playing arm, and while this is an important feature, it becomes merely incidental to the perfection of the tone production, which is accomplished by Mr. Ketting's invention. The horn and sounding board are not rigid but vibrate as the sound waves are transmitted from the reproducer. This again is something new in construction, but the most important feature is the installation of two expansion vibrating tongues, made of wood shaved to a feather edge. These tongues are attached to the "goose neck" of the horn, and extend to the front of the cabinet, flaring from 2 1/4 inches at the point of attachment to about four inches at the forward ends, which vibrate in accordance with the relative strength of the sound waves which agitate them.

These tongues serve the purpose of carrying the tone reproduction intact from the goose neck, to the front of the cabinet, when it is distributed into the room. There is no dissipation, or scattering of the tone in the horn proper and the result is that the enunciation of vocal selections, the subtle harmony of the violin, and the heavy symphony of orchestra and band are heard with a distinctness that could not, it would seem, be improved upon in a reproducing instrument.

The local agency for the Ideal has not yet been awarded but several names are under consideration by the directors, and some one will be chosen in the latter part of this week.

Readers' Viewpoint

Prof. C. P. Smith.

Editor of the Advocate:
Many teachers of Licking county regret that Prof. C. P. Smith, superintendent of Utica schools is retiring from the board of examiners.

Prof. Smith is, in the full sense of the word, a self-made man. A graduate of two high schools and from one of the best colleges in the land, with honor, and having taught in rural, elementary and high schools with success, he was fully prepared for efficient work as county examiner. As a student he was always at the head of his class. As a friend said: "We always mention with pride that 'Clint' was one of our class. He wears his honors meekly." Pride of office is as alien to him as taking himself too seriously in any other way would be. His many friends wish him success.

J.

Give It Up.

Editor of the Advocate:
If Mr. Fairbanks in his speech of acceptance on the 31st inst. fails to furnish the Republicans an issue on which to conduct their campaign against Wilson to whom shall they go for comfort and edification? Where shall wisdom be found and where is the place of understanding? The deep saith, It is not with me, it cannot be gotten for gold—not even the gold of Wall Street—neither shall silver be weighed for the price thereof. Whence then cometh wisdom and where is the place of understanding?

M. R. SCOTT.

Samuel Hill of Seattle, son-in-law of the late Jim Hill, railroad magnate, has accepted an offer from the Russian government to go to Vladivostok. His duties will be to manage the Trans-Siberian road's traffic department, which is greatly congested with the huge munitions shipments now at hand.

Under the license law of Sweden, no one may buy a drink without buying something to eat at the same time.

25 Years Ago

(From Advocate, Aug. 28, 1909.)
Misses Mary and Florence Franklin of North Third street and their sister Mrs. H. H. Griggs left yesterday for Cleveland to attend the wedding of their friend, Harry Stair.

Doctor E. E. Montgomery and wife who have been travelling through the western states, will arrive here tomorrow to visit their parents.

Flanigan and McWilliam's bakery on North Fourth street has just undergone some improvements in the shape of new ovens and cases.

15 YEARS AGO.

(From Advocate, Aug. 28, 1901.)
The Rev. J. C. Schindel, the new pastor of the St. Paul's English Lutheran church of this city, was honored Tuesday at Buffalo, New York, at the Convention of the Society of Porto Rico. Mr. Schindel was elected National Chaplain.

The John W. Vogel's Big Minstrels are in our city this evening.

Miss Grace and Marguerite Platto have returned from a visit with friends in Zanesville.

Miss Helen Banton left this morning for Bellefontaine to be the guest of Mr. and Mrs. Will Cool.

The World War a Year Ago Today—Aug. 28.

The Russian minister of war announced that Russia was raising a new army of 2,000,000 men and would not make peace until the land was cleared of Germans.

Six German aeroplanes, three from the region of Soissons and three from the region of Compiègne, flew in the direction of Paris. They were not able to attain their objective, however, and dropped bombs only on Nogent-sur-Marne, Montmorency, Montfermeil, Ribecourt and Compiègne. The commandant of one French aerial squadron pursued a German machine from a height of nearly 12,000 feet and brought it down north of Senlis. The aeroplane and the pilot were found to be burned to ashes.

MASONS PREPARE GOOD PROGRAM FOR THURSDAY PICNIC

Thursday of this week is the day arranged by the Masons of Newark as the one on which they will hold their annual picnic and Moundbuilders Park has been chosen as the place to hold it. The arrangements for a big time have been completed and, if the weather is propitious, there will be an immense crowd present not alone from the city but as well from county lodges. The picnic is for the members of the order, their families and friends and everybody will be heartily welcome. A program of pleasing events for the afternoon has been prepared and it will embrace speaking by local men of ability, music by the Masonic Choral Club dancing and races, including horse and automobile.

It will be an afternoon event with a picnic supper and, incidentally free coffee will be one of the features of the supper. The dancing will be free to the Masons who enjoy that pleasure.

The speaking will take place about two o'clock and the speakers secured are J. W. Horne and A. S. Mitchell, both known locally as men of ability and who will interest as well as instruct their hearers. The program will include music by the Masonic Choral Club which has been practicing arduously and earnestly for the event.

The program of foot races is as follows:

100-yard dash, boys 8 to 12 years.
200-yard dash, boys 12 to 16 years.
200-yard dash, men all over 16 years.

100-yard dash, men over 200 pounds.

100-yard dash, girls 8 to 12 years.

100-yard dash, girls 12 to 16 years.

50-yard dash, ladies all over 16 years.

50-yard dash, ladies all over 150 pounds weight.

Ball throwing contest, free for all ladies.

Needle threading contest, girls 12 to 15 years.

Potato peeling contest, ladies only.

Running broad jump, boys 8 to 12 years.

Running broad jump, boys 12 to 16 years.

Running broad jump, men all over 16 years.

Running high jump, boys 10 to 15 years.

Running high jump, boys 15 to 18 years.

Running high jump, men only.

Nail driving contest, ladies only.

One-half mile bicycle race, boys 10 to 15 years.

One-half mile bicycle race, boys over 15 years.

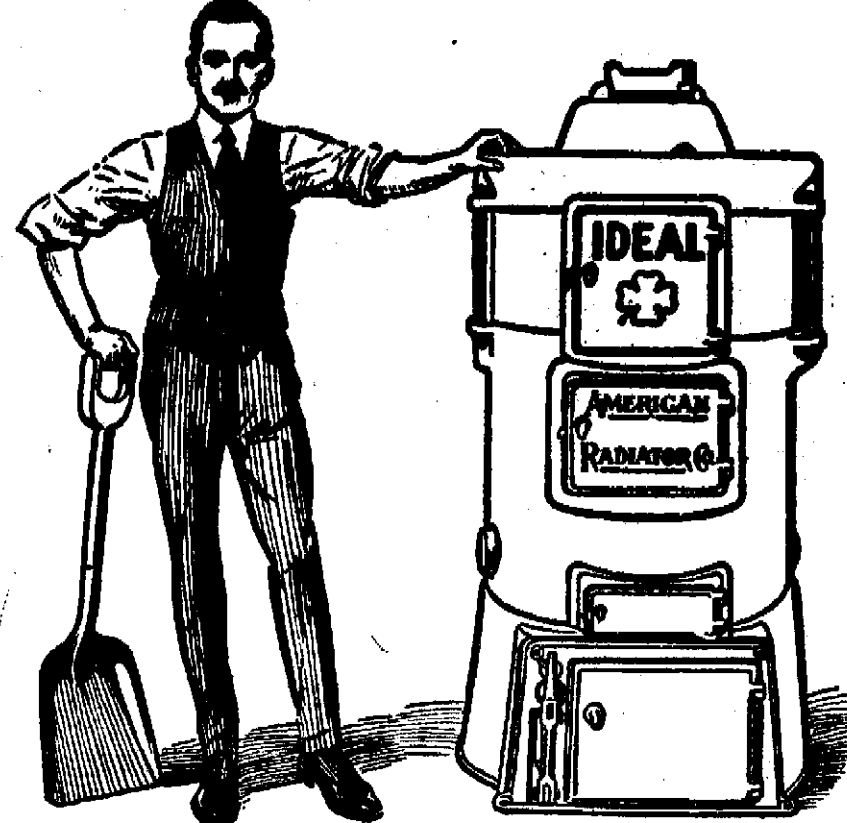

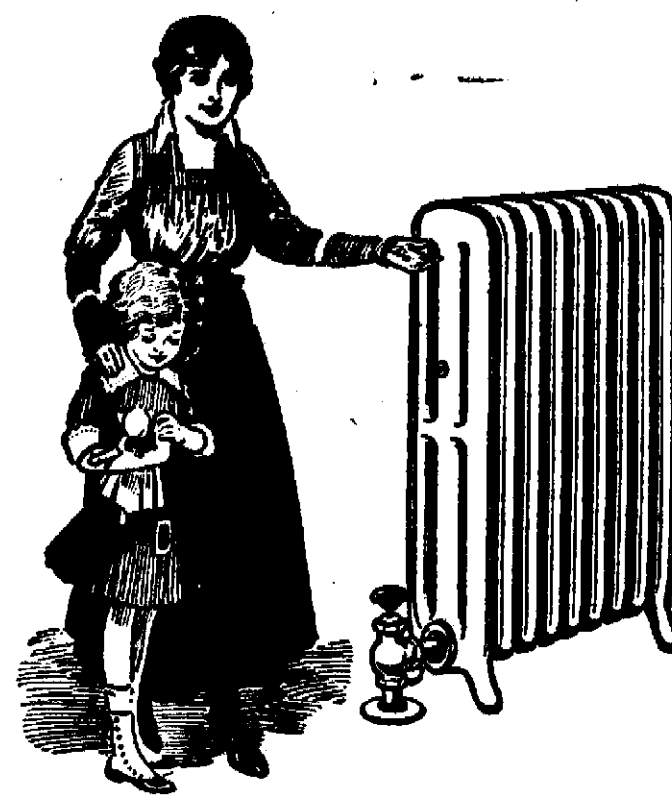

Cash prizes (first and second) for all races.

Mrs. Teresina Allen, aged 61, who died recently at Trinidad, Col., was a daughter of the famous, the almost mythical, Kit Carson of Indian fighting fame. She is survived by two brothers, one of them Kit Carson, Jr.

Amusements

Alhambra Tonight and Tomorrow.
Do you believe in fairies? When Maude Adams asked that question at the end of her marvelous performance in "Peter Pan" every man, woman and child in the theatre invariably joined in the chorus of affirmatives. Now Marguerite Clark, herself the incarnation of the elf spirit, is being starred by the Famous Players Film Company in its delightful fairy tale, "Little Lady Ellean," which is the attraction at the Alhambra tonight and tomorrow. And if, at the end of the performance,

Face winter without fear

The home circle is the nation's greatest asset, and the foundation of the home is cozy warmth—the dust-free, healthful, reliable warmth that everyone nowadays knows is solely guaranteed by use of

AMERICAN & IDEAL RADIATORS & BOILERS

Tens of thousands of IDEAL Boilers are sold by us annually for heating all kinds of buildings in America, Europe, Japan, Australia, etc. No other kind of heaters in any way equals these outfits as heat-makers and fuel-savers, and they are permanent—nothing to rust out or wear out.

Burn one-third less fuel than other devices

IDEAL Boilers and AMERICAN Radiators are built scientifically to extract and distribute the greatest possible volume of heat from each ounce of coal. Two-thirds of the heating surface of an IDEAL Boiler is directly around the fire—absorbing the utmost heat from the fuel. Heat is circulated three times as rapidly as in old-fashioned heaters—which is one of the strong reasons why IDEAL Boilers burn one-third less fuel than other devices.

Tested and specified by eleven greatest nations

Easy to put coal in the roomy door—a whole day's supply put in a minute's time. Easy to shake because you stand erect—gently shake only a few grate bars at a time. The same water is used for years. Supplied with IDEAL Syphon Regulator which controls draft and check dampers automatically to suit weather changes. Many exclusive features, tested and specified by eleven greatest nations for government buildings, hospitals, etc. We appoint no exclusive agents anywhere—can be put in by any dealer—the price is the closest possible between manufacturer and user. Price is no higher than asked for inferior makes. Accept no substitute! On each IDEAL Boiler and AMERICAN Radiator our name is cast—your guarantee.

Send today for "Ideal Heating" (free), giving much valuable information on fuel economies—for homes, churches, stores, schools, and other buildings. Act now, and face every future winter without fear.

Another great labor-saver—stationary Vacuum Cleaner

You can wonderfully reduce house-labor and protect home health by use of ARCO WAND Vacuum Cleaner—sits in basement or side room; works through an iron pipe running to all floors; cleans carpets, furnishings, walls, ceilings, clothing, mattresses, furs, etc. In sizes at \$115 up. Ask also for catalog (free).

No exclusive agents.
Sold by all dealers.

AMERICAN RADIATOR COMPANY

ance, little Miss Clark were to step out of the screen upon the stage and ask the audiences of the Alhambra theatre whether they too believe in fairies, there is little room for doubt that they would unanimously shout "Yes!"

Mazda.

Are you going to see Miss Gladys Hulette's last appearance at the Mazda, in "The Shine Girl"—tonight?

We have had our instructions to box this charming personality and sunny little actress and ship back to Cleveland—as hundreds of cities are crying daily for her.

Newark is bound to go down in annals of history as the first city to release this now production of Miss Hulette's. Are you able to be among those who can say—"I saw Miss Hulette in 'The Shine Girl,' when it played at the Mazda the latter part of August, 1916?"

In "The Redemption of Dave Darcey," to be seen tomorrow at the Mazda service, depicting an interesting episode in the meeting of one of the members of Lower East Side society with members of Upper West Side life in the metropolis, one of the cleverest hits of business which has been used for sometime to attract the audience's notice to a point in the play is employed.

The employer of Dave, the youngster, to test his new employee's sense of honesty leaves a roll of money on the floor of his office, and then goes out with instructions to Dave to dust up the place.

In cleaning up the office, Dave accidentally comes across the money—which incident is the central one about which the entire photoplay is constructed.

Auditorium.
The event of the season is the appearance today at the Auditorium of the Digmusical comedy "The Social Follies" who last week were a tremendous hit at Columbus. This company is one of the American wheel shows and Manager Penberg has arranged to offer one of their musical shows each Monday afternoon and evening at his house and it is hoped that Newark show-going people will turn out and patronize these attractions as from press reports they are considered the best of the kind now appearing throughout the country.

transport the scenery and effects of the company and every bit of it will be hauled to the Auditorium for the presentation of the production at both matinee and evening performances. With an all star cast of principals, as well as the youngest and prettiest chorus of the season, Newark show-goers will be assured a real treat today.

The seat sale is quite large and no doubt capacity business will rule.

Ralph Herz, the star of "The Soul Kiss," "Ruggles of Red Gap," "A Half of Sixes," and many other notable stage productions will be seen on the screens here at the Auditorium on Tuesday.

Wednesday together with Billie Burke in Glorious romance in "The Purple Lady," a 5-part Metro-Rolle wonderful play pictured from the stage success of the same name by Sydney Rosenfeld. Taut and fascinating Irene Hawley is featured with Mr. Herz in this production and there is a strong supporting cast including Alan Hale, Howard Truesdell, George Panoforte, Gailo Colucci, Gretchen Hartman and other well known stage and screen artists.

Mr. Herz, who stars in "The Purple Lady" is said to be one of the cleverest comedians on the legitimate stage.

MINA GCHALL.

The Blonde Venus with "Social Follies" Auditorium, Monday, Aug. 28.

Newark, Ohio, under the Act of March
3, 1879.It is never a good plan to swap
horses while crossing a stream of
water.—Abraham Lincoln.

If Trains Stopped Running.

What would happen in case of a general and prolonged railroad strike? Evidently the American people would be up against one of the greatest practical exigencies that a civilized society ever confronted.

But human ingenuity has marvelous gifts of meeting such situations. There would be a few weeks of chaos. But the American people are resourceful. They would immediately set themselves to work to devise substitute systems of transportation.

As the pending controversies relate only to freight traffic, it has been said that passenger business would not be much interfered with. But it would be a mistake to keep men busy running passenger trains who would be needed in the more vital work of handling freight.

Half of the passenger traffic could stop without doing any very serious harm. People could take their outings at home. Suburban dwellers could depend on trolleys and jitneys. Business men could use the telephone. As the mail trains would probably be kept running, letters and circulars could serve.

The stoppage of freight trains would paralyze all industry. Food distribution today is an amazingly complex machine. The breaking down of the system means famine in a few days. At all hazards public sentiment would demand that the freight business must be maintained.

The calamity is so great as to be almost unthinkable. Yet it may take some such disaster to arouse public sentiment to the need for some system for settling labor disputes. The suffering of a strike might be worth while, if it could be settled once for all that neither labor unions nor corporations own the whole United States, and that neither has any right to inflict suffering on the public in order to gain their own ends.

The Webster, W. Va., Echo, spells it "Chitauqua." Well, why not? It's shorter and easier.

After the strenuous work of vacation play, the children are now ready to get some rest going to school next week.

It is predicted that the women of England will get the ballot after the war. Perhaps then the men will be free to vote according to their own wishes.

Many people consider it highly improper for a girl to wear on horseback a costume in which there is no danger of breaking her neck.

In case of a railroad strike, great suffering is expected for the people who have to give up the tricks of traveling and remain in their own comfortable homes.

Daily History Class—Aug. 28.

1749—Johann Wolfgang von Goethe, born; died 1832.

1796—James Wilson, jurist and "signer," died; born 1742. Mr. Wilson reported to congress the Constitution of the United States.

1918—Russia was raising a new army of 2,000,000. French air squadron repulsed six German craft raiding over Paris.

America's Opportunity

(By President Woodrow Wilson.)

From General Federation Magazine for September

No one can doubt that the immediate future of the world will be crowded with quick changes. Every true lover of America must wish the United States to play a part in those changes which will be worthy of her ideals and her character. Almost alone among the great nations of the world she will be unhampered in meeting a great opportunity.

In the first place, her resources are unimpairable. Not only has the war and all its attendant circumstances made no hurtful drain upon her men or her materials; it has even enhanced her skill and added to her resources, because of the very circumstances of her situation, cut off from her usual trade with many parts of the world and called upon to supply what she never supplied before, to the nations engaged in the great struggle not only, but also to her own people. She has developed industries that she had before neglected, has found new uses for her material and new material to use. She has thus been enabled to realize what she can do more fully than ever before, and to do it better than she ever did before. No other nation will stand quite so ready as she to serve the world in every work of peace and development.

In the second place, she will probably of necessity be the chief balance of the rest of the world in the field of finance. Probably the chief part in supplying the means necessary for the great reconstruction which will have to follow the war will fall to her. When the war began America was, striking the large balances, a debtor nation. When the war closes, she will be a creditor of all the world. Her financiers will have it within their choice to play a part they have never played before in the economic development of other nations and of distant regions of the earth. It is to be hoped that they will have the vision to accept the opportunity with far-sighted courage and a quick adaptation to the new conditions.

In the third place, I think it is evident that the United States will understand herself better than she ever did before. The war and all its attendant circumstances have cried her wide awake to both the dangers of her life and its enormous possibilities and advantages. There have been many things to disturb us during these two years of long drawn-out tragedy. We had not realized before that there were certain elements in our citizenship which had not in their heart of hearts devoted themselves in full loyalty and allegiance to the country of their adoption. A new problem of disunion, more subtle, more difficult to meet

with direct checkmate and correction than the old problem which culminated in the Civil War, has engaged and disturbed our thought, and we have realized that we must devote a new energy and ardor to binding together the forces which will produce a new union, a union of spirits triumphant over every alien force and sympathy. But this very discovery, this very anxiety, has quickened the pulse of every loyal and devoted American throughout the length and breadth of the land, whether his birthplace was on this side of the water or on the other. A new and wholesome force has arisen amongst us, a thoughtful, watchful, energetic patriotism, and I venture to think that the nation is better prepared on that account to face the problems of a new day in which it will marshal all its energies to enable the country we love to play the part it should seek to play in the councils and actions of the great world.

Fortunately, America can play her part in the days to come unselfishly and impartially, because she covers nothing that other nations have unless it be their skill and knowledge in some of the undertakings of science and industry, and these things she can obtain not by conquest of force, but by the mere casual use of the extraordinary capacity of her people. She can produce like skill and knowledge for herself. That is one of the things these days of struggle and interrupted trade have taught her. She has nothing that she wishes to take away from the other nations of the world, and she is better prepared than she ever was before to make such contributions to the development of other nations.

The opportunity is at hand, therefore, for which she has waited. Her principles are suited to the freedom of mankind and the peace of the world. She can now exemplify those principles in action and a new leadership, a new opportunity to exhibit them upon a great scale. She can now afford an example of energy in justice as well as in enterprise, in fair and honorable competition, in thoughtful adaptation of her resources to the needs of the world, which may help to inaugurate a new era in the intercourse and friendly interdependence of the peoples of the world.

That she will rise to this great opportunity no man who knows her can doubt. It should be the pride and thoughtful purpose of every American so to equip himself with knowledge and so to charge his own heart that he may play a suitable part in this rebirth of Americanism.

Safe at Home.

(Cleveland Plain Dealer.)

No German man-of-war, not even the heroic Emden, has done so much for Germany as the unarmed Deutschland. She has been of material aid, for she brought to Bremen a valuable cargo, and she has pointed the way for other submarine merchantmen. It is not inconceivable that this undressed commerce may prove of real value to belligerent Germany. The Deutschland has shown how readily a submarine can get at naught the great British blockade.

But the moral effect of the Deutschland's voyage is more important than any direct practical result. It indicates the invincibility of the German intellect, and the resourcefulness of the nation which is the world's unquestioned leader in all branches of natural science.

When there is a problem to be solved some German accepts the task of solving it, and he succeeds if success is within human power.

The man who perfected the Deutschland and the captain who brought her from Bremen to Baltimore and back are typical of the German spirit. It is a spirit that every nation, neutral or belligerent, must admire, regardless of its opinion of the Prussian political philosophy. America rejoices that the Deutschland is safe at home and joins in Germany's chorus of "prosit" to the gallant Captain Koenig.

An Anti-Campaign.

(Independent and Harper's Weekly.)

As a candidate Mr. Hughes has not yet come up to expectations. It is true that he has received everywhere with large and enthusiastic audiences. That was to be expected. It is also true that he has exhibited upon the platform sufficient "pep" and "zing" to dispel the myth, sedulously being cultivated by his opponents, that he is cold and austere. The trouble is that he has not yet told the American people positively and concretely just what he proposes to do if elected President. It is not enough to demonstrate President Wilson's sins of omission and commission. The American people know them already. It is not enough to promise to instill efficiency into the government service and to eliminate graft. Everybody knows Mr. Hughes will endeavor to do this.

The American people want to know what constructive program Mr. Hughes has to offer them. They demand of a leader a demonstration of leadership. There is a serious danger that the Republican candidate may become an "anti." And it never pays in this world to be an anti anything.

A Warm Reception.
First Burglar—"Hullo, Bill, why you look as if you'd been through a cyclone since I last met you. What's wrong?"

Second Burglar—"I got into a house where the woman was waiting up for her husband, and she mistook me for him."—Boston Transcript.

Read the Want Column tonight.

Spirit of the Press

Applies to Newark, Too.

Brilliant automobile lights caused a man's death recently near Canonsburg, Pa. He was blinded and drove off the road. Motorists who persist in carrying dazzling lamps—and many are to be seen on Pittsburgh streets every night—should consider the wisdom before it is too late.—Pittsburgh Gazette-Times.

War and Rain.

Just after the official announcement that the American corn crop is "in a serious condition from drought," it is surprising to hear that the scientists have gravely demolished the theory that the firing of big guns in Europe is the cause of the "frequent rains" in the United States this summer.—Pittsburgh Times.

Trouble Coming.

When Secretary Daniels heard about that "bawdy dance" at Newport, he'll be ordering the sale at auction of every phonograph on the fleet.—Boston Transcript.

Aerial Observations.

To become a skilled aerial observer requires no small amount of training. Even with the aid of aerial maps, which try to depict objects as they look from above, the untrained observer several thousand feet above the earth has much difficulty in distinguishing objects for what they really are. The earth assumes a very queer appearance, state roofs become pools of still water, and trees are indistinguishable from borders, while troops standing motionless are said to be almost indistinguishable from clumps of foliage.—The American Boy.

Literary Trash.

Well-known universal deterioration of the standards of American periodicals has become a matter of widespread observation and frequent comment. An editor and a librarian have recently diagnosed the magazine's disease. As lately as a quarter of a century ago, according to Librarian F. W. Faxon of Boston, virtually every popular periodical obtained record in "People's Index," the entry showing that the magazine published material of permanent value. Within the last few years, however, has appeared a constantly growing number of periodicals which, to say nothing of their moral viciousness, are such intellectual and literary rubbish, that they deserve only to be sold to the paper mills. Even the superior magazines begin to yield to the tide of sludge and sewage. These story periodicals comprise two classes. One vends colorless and ill-written tales, the other stories of "high" life or "breezy" in character. All of this stuff is flimsy, shoddy, and most of it is sexual salaciousness, and most of these periodicals ought to be suppressed.—Spokane Spokesman-Review.

The Bavarian Council approves the action of the German Chancellor in avoiding a conflict with the United States on the von Tirpitz method of warfare. All Germany approves it when the war fever subsides.—Rochester Herald.

"NICE DOGGIE, HOME AGAIN"

Pointed Paragraphs

It takes some gray-whiskered old country editor with one foot in the grave to remark optimistically that despite his billions John D. Rockefeller can't buy youth.—Boston Transcript.

The Countess von Bernstorff has sailed for America to join her husband, the German ambassador. Now we needn't worry any more over the count's conduct.—Pittsburgh Gazette-Times.

But, if Mr. Hughes can't unite the factions in California, how is he going to force reform from a refractory Congress?—Pittsburgh Dispatch.

Billy Sunday is going to visit Detroit, and the chances are that the real truth about that town will be told at last.—Cleveland Plain Dealer.

American flour has been made so fine and white that it is not as good as a coarser and darker flour could be. We have, in short, improved flour too much, in many other things we smart Yankees are too smart.—Ed Howe in New York Independent.

Sharks are now reported at Oyster Bay. Now we shall see whether they are the real thing or mere nature fakes.—Cleveland Plain Dealer.

Though the political campaign is young, it seems to have been found necessary to call upon the Old Guard for help, and this may increase the silence at Oyster Bay.—Rochester Herald.

But some good can come out of the advancing paper market. It will put Mexican currency on a more stable basis.—Arkansas Gazette.

DO YOU KNOW

That one million, two hundred thousand Americans die each year, it is estimated?

That heart disease, pneumonia and tuberculosis cause more than 30 per cent of deaths?

That sickness lowers earning capacity?

That the U. S. Public Health Service is the nation's first line of defense against disease?

That disease is the nation's greatest burden?

That sunlight and sanitation, not silks and satins, make better babies?

That low wages favor high diseases?

That a female fly lays an average of 120 eggs at a time?

(U. S. Public Health Service.)

Democratic Ticket

President—WOODROW WILSON.
Vice Pres.—THOMAS R. MARSHALL.

The Advocate's Melting Pot

These limus—whence had we the "g" is hard; in "Gifford" and "Nigel" it is soft. In "Waldgrave" the second syllable, "de," should be dropped. "Menziess" is pronounced "Mynziess"; "Knollys" is "Knowls"; "Sandys" is "Sands". In "Tadema" and "Millaire" the accent is on the first syllable; in "Claricarde" and "Breadalbaine," on the second. In "Mollyneux" the "x" is sounded and it is pronounced "Molynox." The "x" is sounded in "Vaux" but is mute in "Devereux."

HOORAY!
Tis no time for rain and dances,
Foster coats and wooden pances;
Tis the time for beer and breezes,
Over waists and naked kneeses.
—Luke McLuke.

'Tis the time for skits transparent
To see which men say they aren't;
Also 'tis the time for whoozes,
Quite atrocious, just like thesees.
—Montana Daily Record.

Aunt Caline Says:
A few of the neighbors dropped in on us last night an' each an' ever told us to take a few things along on our oshun trip that we couldn't possible git along without. Maggie Zeen she says, "Aunt Caline, without fail take along sheets an' pillow cases fer along the coast it's allers damp an' if you sleep on damp sheets," says she, "you'll ketch a cold you'll carry to yer grave." That's so," says I va some of these here what they call water wigs so if you go in bathing in the deep or git out of your dept it saves yer life. An' I tell you, Aunt Caline, I know all about the seashore an' any information I give you is of some account," says she. Maggie Zeen she snifted some an' says, "When was you at the seashore, I'd like know, Iva?" "Well," says Iva, coloring some, "I've not been adzackly at the seashore, but two years ago I was at Buckeye Lake ter two days," says she.

What a Question!
Editor Melting Pot:—When a man and woman are made one by a clergyman, which is the one?
Glady's.

We are surprised at you, Glady's, for coming to us with a question like this. Go and ask any married woman of your acquaintance.

HOW ABOUT THE HEART?
"Remember this," said Mr. Bee, "To choose, when you are wedded, A dark-haired girl, for you must know That blondes are so light headed."

Measure Your Food.
Eating too much is the pace that kills; and everyone has a chance at it three times a day.—Ed. Howe.

Isn't a wonder Ed Howe many of us survive, having these weapons of self-destruction right at hand, as one might say? And we suppose the hazard would be portentously increased by eating with one's knife.

Did You Know
That in many English names the spelling gives no clue to the pronunciation? "Majoribanks" is pronounced "Marshbanks"; "Cockburn," "Coburn"; "Mainwaring," "Matnering"; "Dillwyn," "Dillon"; "Weymes"; "Weems"; "Strachan," "Strawn"; "Colquhoun," "Kooquhon"; "Beauchamp," "Beacham"; "Deuchene," "Dukarn"; "Bethune," "Becton"; "Milnes," "Mills"; "Gowrie," "Gorr"; "Dalziel," "Doe-ai"; "Glamis," "Glams"; "Geophagan," "Gaygan"; "Ruthven," "Riven"; "Blyth," "Bly"; "Beaulieu," "Bo-clare." In "Elgin" and "Gillett"

Limerick Contest.
Was this enterprising maiden with much sewing over-laden, or did she merely wish to whirl about in a limousine or touring car or in a most alluring and enrapturing electric runabout? Be she seamstress, then, or chauffeur, you must surely let us know, for we are anxiously awaiting what you say: write a limerick quite tidy, send it to us by next Friday, 6 o'clock please, on the first September day. The first line we now are printing, and we would be gently hinting, that the time of sending it you should not miss; and the best will surely collar a real silver round dollar, which the Advocate is saving just for this:

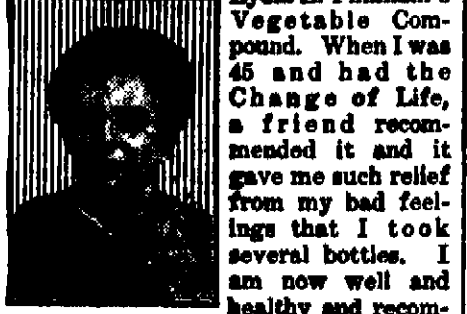

A girl wished to buy a machine
.....
.....
.....
.....
.....

Granville Street Car.
The Melting Pot has had an inquiry concerning the old street car line on Granville street; the franchise for this road was granted on September 27th, 1886, and the road was ready for operation in 1887, continuing in operation for about two years. It started from the north side of the Public Square and ran up Granville street to Ninth street. The rolling stock consisted of a small four wheeled car whose motive power was one horse. The schedule being somewhat elastic, the driver had a leisurely way of stopping between trips to regale himself in the fruit orchard of the late Daniel Wilson. The brief life of the road was probably due to the disfavor of residents on Granville street, many of whom were antagonistic to it from the beginning.

ELDERLY WOMEN SAFEGUARDED

Tell Others How They Were Carried Safely Through Change of Life.

Durand, Wis.—"I am the mother of fourteen children and I owe my life to Lydia E. Pinkham's Compound."

—Mrs. MARY RIDGWAY, Durand, Wis. A Massachusetts Woman Writes: "Blackstone, Mass.—'My troubles were from my age, and I felt awfully sick for three years. I had hot flashes often and frequently suffered from pains. I took Lydia E. Pinkham's Vegetable Compound and now am well.'—Mrs. PIERRE COUNROYER, Box 239, Blackstone, Mass.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dizziness, impeding eye, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness, should be heeded by middle-aged women. Lydia E. Pinkham's Vegetable Compound has carried many women safely through this crisis.

Milady's Boudoir

The Use and Abuse of Powder. Face powder can be abused if not used discretely, just as perfume, lip rouge or any article of Milady's toilet.

Few people will deny that it is a necessity to the well-groomed woman, but of course there are many badly groomed women who employ innocent powder to cover a multitude of pimples, rather than sin.

The way in which women use powder differs as much as the women themselves. I hear one declare that only a well worn chamion can be used, another says this is too drying and that a soft bit of flannel is better. The third turns up her nose at the mention of flannel and vouches for some sort of prepared cloth which is on the market for the purpose.

Another says that these are not sanitary and proudly asserts that a fresh bit of absorbent cotton is the only right thing that any woman with any sense can possibly use.

One says a dry towel another a piece of white silk stocking, and still another thinks a bit of Turkish toweling correct; and so the battle of the powder rag continues to be waged.

The secret of using face powder without bad effects depends on whether the face is, or is not, thoroughly cleansed before retiring. A good pure cream should be applied and wiped off with a clean soft towel. This will leave the pores clean and free for several hours and at the same time improve the color and texture of the skin.

The wise woman will choose her powder carefully as her physician. She will select the tinge best suited to her complexion, apply it carefully, never neglect to brush out her eyebrows and lashes, and always look the better for using it.

Not Expensive. "My wife and I are thinking of chartering a yacht for the summer." "Won't that be pretty expensive?" "Not as long as we confine ourselves to thinking about it."—Cincinnati Enquirer.

I. Bernstein of Conway, N. H., has potato stalks five feet six inches tall, and still growing.

The Joy of Feeling Right Inside

is largely a matter of right eating—of choosing food that is both appetizing and nutritious.

Grape-Nuts

With Cream not only nourishes and sustains body and brain, but tastes mighty good.

The sweetness of long-baked whole wheat, blended with the delicate taste of malted barley is a wonderfully delicious flavor.

Grape-Nuts contains all of the nutriment of the grain, partly predigested, including the vital mineral salts, so necessary to thorough nourishment.

"There's a Reason" for

Grape-Nuts

Society

Miller-McLaughlin
The marriage of Miss Edith McLaughlin and Mr. Harry E. Miller was solemnized Saturday evening at 7:30 o'clock at the parsonage of the United Brethren church in East Main street. The pastor, Rev. A. B. Cox read the marriage service.

Mr. and Mrs. Miller will reside on a farm south of Newark.

Mrs. John McVicker entertained the Social Embroidery club Wednesday. The afternoon was spent in sewing. Mrs. Harry Rainey and Mrs. Robert Lytle receiving the club prizes in the contest and Miss Dorothy Donovan of Columbus the guest of honor. A delicious dinner was served the members and guests.

Th Omega Embroidery club met with Mrs. David Peepers at her home on Monroe avenue, Wednesday afternoon. After a short business session the hours were spent in crocheting and at 4 o'clock a dainty lunch was served. Mrs. Peepers was assisted by Mrs. Ray Peepers in entertaining. The next meeting will be held at Mrs. Watts on Oakwood avenue.

Wife of Canada's New Governor General

The Duchess of Devonshire, wife of the new governor general of Canada, is a famous hostess and has been Queen Mary's mistress of the robes for a number of years. She is one of Queen Mary's most intimate friends. The duchess has six children, two sons and

Photo by American Press Association. DUCHESS OF DEVONSHIRE.

four daughters. Of slender build and with small features and dark hair, the duchess invariably wears quiet looking gowns. She is the daughter of the Marquis of Lansdowne and is no stranger to Canada, having lived there with her brother when he was governor general.

Short Cuts

To Drain Silver.—Perforate the bottom of a pound baking powder can with many holes. When washing knives, forks and spoons have one or more of such cans in the rinsing pan and place each article upright in it as it is washed. Pour boiling water over all, remove to another pan or dish for a moment, then place on the stove shelf to finish drying. No wiping is required.

To Repair Wall Paper.—To cover a soiled or torn spot on wall paper which has become at all faded, take a piece of new paper of the same pattern and expose it to the sunlight until it is faded to the same degree as that on the walls. The patch will then be practically invisible.

A Great Convenience.—Separate the leaves of a newspaper and cut in halves, pierce the pad of leaves near one end and hang them over a nail as near as possible to the kitchen table or cabinet. Use them to slip under kettles or anything which would soil the table. They will be handy also for other uses too numerous to mention.

Service. There is no service like his who serves because he loves.—Sir Philip Sidney.

New Declarations Impress Germans; Press Very Bitter

(Associated Press Telegram)
London, Aug. 28.—Italy's declaration of war against Germany and the declaration of war by Rumania against Austria-Hungary have caused a most profound impression in the German capital, says a dispatch from Berlin by way of The Hague to the Exchange Telegraph Company. The Berlin newspapers, the dispatch adds, express themselves bitterly against Gottlieb von Jagow, the German foreign minister and Dr. Alfred Zimmermann the under secretary of foreign affairs, those statements being considered by the journals to be partly responsible for what is declared to be Germany's diplomatic defeat.

The United States is now exporting \$75,000,000 worth of sugar yearly. Before the war the yearly export was valued at about \$5,000,000.

Watch With Three Cases.

One repeater watch that strikes the hours automatically was made by the Englishman, Thomas Mudge, about 1765, upon order from Ferdinand VI. of Spain, who always listened to a song by his favorite court singer, Farinelli, before he undertook serious state business, and who finally became insane after the death of his consort, Barbara, daughter of John V. of Portugal.

Like many watches of the time this was made with three cases, so that the owner might use the same timepiece for many occasions by taking off case after case. The outer case of this watch was made of snakeskin ornamented with gold.

It was believed that the owner wore this outer case when he rode in the coach or went to battle, so that the works and inner cases might be protected from chance blows. In ordinary life around the castle he would wear the second case of simple gold, while on state occasions he would strip the cases down to the last, since it was jeweled and highly ornate.—New York Times.

Children and Baby Talk.

Do you encourage baby talk in your children? If you do you are making a great mistake, according to V. M. Hilmyer, the well known educator. Here is what Mr. Hilmyer has to say on the subject in his book, "Child Training": "The mispronunciation of words, due to inability to articulate or more usually to incorrect hearing, may be amusing and delightful on account of its simple nature, but it should be corrected and, above all, should not be imitated by the parent or teacher. 'Oo' and 'tlee' may be cunning in a three-year-old, but it is silly for a grownup to use such expressions in addressing the three-year-old, like talking 'pigeon' English to a Chinaman, but what is worse, it gives an incorrect model for the child and thus prolongs the time he will take to speak correctly. Precision in the pronunciation of one's native tongue is always delightful at any age and an earmark of the well bred."

Loyalists in the Revolution.

John Adams estimated that one-third of all the people in the colonies were Loyalists—that is, opposed to the war with England. A minority of these favored obedience to the English laws, but the great majority opposed the English methods with the colonies but wanted a peaceable settlement. War drove the Loyalists to armed resistance, and in New York state alone more than 20,000 Loyalists took up arms for the British. Out of a total population of less than 4,000,000 more than 60,000 Loyalists left the colonies during the revolutionary period because of their political position.

The Cat and the Tail.

Once upon a time a cat who prided herself on her wit and wisdom was prowling about the barn in search of food and saw a tail protruding from a hole.

"There is the conclusion of a rat," she said. Then she crept stealthily toward it until within striking distance, when she made a jump and reached it with her claws. Alas, it was not the appendage of a rat, but the tail of a snake, who immediately turned and gave her a mortal bite.

Moral.—It is dangerous to jump at conclusions.

A Remarkable Man.

John Ziska, the great Hussite leader of the fifteenth century, was one of the most remarkable men that ever lived. His life story reads like a romance. Nothing in history is more interesting, more thrilling, than the account of his heroic deeds. Though blind and always greatly outnumbered, Ziska invariably beat his enemies and established for himself a fame that will last forever. He was never beaten in a battle. His very name was a terror to his enemies. He died in 1424, while besieging Prazibislaw, at the age of sixty-four.

Grapes and Wine.

Most people think white grapes make white wine and dark grapes make red wine. It is a popular error. Red wine is made by fermenting grape juice and grape skins together, and white wine is made by fermenting grape juice alone.

Not Manlike.

Patience—Women seem to be doing everything that men do nowadays. Patience—Nonsense! You never saw a man powdering his nose fifty times a day, did you?—Yonkers Statesman.

Kings of Jerusalem.

At least four sovereigns lay claim to the title of "king of Jerusalem"—namely, the sultan of Turkey, the emperor of Austria, the king of Spain and the former king of Portugal.

PRACTICAL HEALTH HINT.

Meltzer on Infantile Paralysis. Dr. S. J. Meltzer of the Rockefeller Institute in a recent address in New York before a body of physicians recommended as a possible cure for infantile paralysis the use of intraspinal injections of adrenalin. He said: "On the basis of experiments conducted by our researchers I would advocate the treatment of all cases of infantile paralysis by intraspinal injections of a solution of adrenalin. Clinical experiments conducted at the institute by Dr. Clark and myself on monkeys artificially infected with infantile paralysis have produced encouraging results."

In Japan devilfish weighing up to 200 pounds are sometimes caught.

Personal

Mr. and Mrs. Edward Streat of East Main street have returned from a trip to Los Angeles, Calif.

Rev. Father Whelan of Columbus spent Sunday with relatives in Newark.

Miss Clara Miller, bookkeeper for the Swanson Rheumatic Company, is spending a week in Columbus the guest of friends during her vacation.

Mr. and Mrs. Charles Coulter, Mr. and Mrs. William Nutt and two children of Columbus were in Newark Sunday the guests of relatives.

Miss Myrtle Houck and Miss Amelia Verheyen spent Sunday in Columbus the guest of Fred Verheyen at Camp Willis.

Mr. and Mrs. John A. Garrity and children, and Mr. Carl Myer motored to Mt. Vernon, Sunday, where they were guests of Mr. and Mrs. I. H. Shutt.

Miss Mattie DeNoon has returned home after spending her vacation with relatives in Troy, O.

Mrs. Frank Gaffney and Miss Marie Linehan of Stouenville are visiting relatives in Newark today.

Elwyn Davies has gone to Akron where he will be the guest of his sister, Mrs. Withers.

Frank Coulter of Columbus was the guest of friends in Newark Sunday.

Mrs. Johnson and daughter Miss Mayme Jones of Cottage street have returned home after spending a week in Westerville, O.

Miss Mabel Hughes has returned to her work in the offices of the Newark Telephone company after a week's vacation in Alexandria.

Miss Lenora Phillips of West Church street left today for Urichville where she will be the guest of Miss June Elson.

Mrs. J. Clifford Dillon of Cleveland is visiting relatives and friends in Newark.

Miss Virginia Wheeler has returned home after spending the summer in Cleveland.

Mrs. Elizabeth K. Metz and Mrs. Eugene F. Ball left today for Cleveland where they will join the annual pilgrimage of the U. S. D. 1812 to Fort Bay.

Miss Myrtle Sanders, employed at the Licking County Bank, is spending her vacation at Toledo and Detroit.

Mr. and Mrs. W. A. McMillen and daughter Katherine returned Saturday from a trip to Salt Lake City, Utah and western points.

Mrs. Edward Drum and children of Buena Vista street left today for Cleveland where they will spend two weeks at Euclid Beach.

John J. Carroll returned from New York yesterday after a week's stay.

Professor Frank Ray of Granville road went to New York yesterday afternoon on business.

Miss Beatrice Kolvey and Miss Leona Gilmore returned home yesterday after visiting at Cedar Point for a few days.

Mrs. T. A. Bazler is visiting her sister, Mrs. Edna Carter of Shawnee for a few days.

Mrs. Jesse Roche of West Church street returned Saturday from Cleveland where she was visiting for several days.

Miss Nellie Combs of Piedmont, W. Va., is spending a few days with her sister, Mrs. J. Cashman of North Fourth street.

Mrs. Charles Trees and her sister, Miss Wagner of 543 Hudson avenue, have been spending many delightful weeks at the charming Canadian camp of J. C. Trees of Pittsburgh. The camp is situated on Manitoulin Island, one of the 30,000 islands in the Georgian Bay, and is an ideal summer resort. Among the guests at the camp this summer were ex-senators Flynn and Wellers, Drs. Swope, King and Schuler, Capt. Fred Clark and family of Winfield, Kas., Mr. Charles Hubbard, Mr. Crawford and Mr. and Mrs. Monroe of Pittsburgh. Mrs. Trees and Miss Wagner expect to be home Sept. 1st.

Dr. H. S. Barrick and family and Mrs. H. F. Moninger have returned from an auto trip from 1500 to 1600 miles in which they visited all the principal points of interest in the east.

Mr. and Mrs. Stanford Smith of Jefferson Road have returned from a trip to Chicago and Detroit.

Miss Mildred Baker of Columbus is visiting Miss Thelma Mazy of Hudson avenue for a few days.

Mr. Harry Swisher and daughter Dorothy motored to London, Ohio, yesterday.

Mr. Robert Swartz, a gas well drill, in the employ of Edward Pearson, went to Danville Saturday.

Mrs. D. J. Ganey and two children of Gailpolis, O. who have been visiting Mrs. D. A. Ganey in Hudson avenue have returned home.

Mr. and Mrs. W. T. Bell of Chicago, Ill., who have been traveling through the east are the guests of Mr. and Mrs. Stewart Teaff of West Main street for a few weeks.

POSED FOR SUFFRAGISTS.

A feature of the mayor's celebration in the New York city stadium on the evening of the Fourth was a symbolic tableau representing Victory 1917 bringing the ballot to the women of New York. Womanhood, Justice and Motherhood made an appeal to the en-

POSED FOR SUFFRAGISTS.

A feature of the mayor's celebration in the New York city stadium on the evening of the Fourth was a symbolic tableau representing Victory 1917 bringing the ballot to the women of New York. Womanhood, Justice and Motherhood made an appeal to the en-

BLANCHER YURKA.

throned Empire State in the name of all women. These were symbolized in all the trades, professions and occupations of women. The principal figure in this group and the one which gave it real significance was Miss Blanche Yurka, leading woman with E. H. Southern in "Lord Dunsinore" and lately appearing with him in "Two Virtues."

Home Cookery

Tomatoes and Cheese. Select good sized tomatoes, smooth and round. Plunge them in boiling water and remove the skins, then chill. Cut them in thick slices and arrange these on a dish with lettuce. Cover the top of each slice with grated American cheese, then add a spoonful of stiff mayonnaise and top with a stuffed olive.

Creamed Fish in Cucumbers. Flake some cold cooked fish. Make a cream sauce rather thick and add the fish with a dash of lemon juice and a dash of salt. Cut three or four large cucumbers in two lengthwise and scoop out the inside. Drop the shells in very hot water and leave them until heated through, then lift out and wipe dry. Fill these while hot with the fish and serve at once on small heated plates, with a little watercress or parsley.

Shepherd Pie.

The leftover meat should be sliced instead of chopped for this recipe. Butter a baking dish and cover the bottom with hot mashed potatoes. Pour on the gravy and sliced meat and cover with more mashed potatoes. Bake the potatoes on lightly and leave the top uneven. Dot with butter and place in hot oven for ten minutes.

England Has New Money.

In an experimental way banknotes are being printed in England on silk waterproofed by a secret process which employs no rubber.

To enable his aeroplane to alight by clutching a cable a Frenchman has built a spring fork that projects from the top of the machine.

Obituary

Mr. Harris' Funeral.
The funeral of Frank M. Harris was held at the home of his son Herbert Harris, of 20 St. Clair street at 10 o'clock this morning. Rev. L. C. Sparks officiating. Interment was made at Cedar Hill.

Violet Deavers.
The funeral of Violet Deavers was held at the home in Conrad street yesterday afternoon, Rev. A. B. Cox officiating. The body was taken to New Lexington for burial. The child was the daughter of Mr. and Mrs. James C. Deavers.

Card of Thanks.
J. H. Parrill and family, of Sharon Valley road, wish to thank Rev. Leckrone, their neighbors and kind friends for their thoughtfulness and many kindnesses during the death of our son, Russell. We wish to express our thanks for the floral offerings and to Miss Brothers for their kindness and help. - 8-28-17

CONDITION UNCHANGED.

(Associated Press Telegram)
Spring Lake, N. J., August 28.—The condition of Mrs. William G. McAdoo, daughter of President Wilson, who is ill with typhoid fever, was unchanged today. It was stated by Colonel William Gray Schaffner, attending physician.

HARRIMAN'S SON WAS WANTED BY THREE PLOTTERS

(Associated Press Telegram)
Salt Lake City, Utah, Aug. 28.—Ransom of \$100,000 was to be demanded for Roland Harriman, son of Mrs. E. H. Harriman, by three men under arrest in St. Anthony, Idaho, in connection with the alleged conspiracy to kidnap the boy. Authorities say that two of the men have confessed.

SENT MONEY TO JAIL FOR SAFETY; THIEF STEALS IT

Marion, Ind., Aug. 28.—The Grant county jail here was visited by a thief early today and a box containing \$463, the property of the Marion Service company, was taken. The money was in the room occupied by D. P. Artman, turnkey. The money was sent to the jail after banking hours Saturday for safe keeping.

Using Up Energy.

"A calory is the amount of heat required to raise the temperature of one pint of water 4 degrees Fahrenheit. If a man rises from his chair and walks about eight feet, then returns, he uses up one of these units," writes Dr. Edwin F. Bowers in "Slidesteping Ill Health."

"Yet the body, even while resting or quiet in sleep, is constantly using up energy. It is also giving off heat about as rapidly as a sixteen candle power electric lamp."

To make up for this constant loss of heat and energy from 2,000 to 3,000 calories are needed every twenty-four hours. This is why we eat, and it behooves us to see that our food furnishes about the right number of calories.

A Burning Glass in the Eye.

In the front part of each of our eyes is a convex lens of great power and clearness. It acts exactly like a burning glass. If a person was made to look at the sun, say, for half a minute, his eye would actually start to burn up. The lens would focus the rays of the sun on the retina, and that part of the eye would immediately scorch and later would burn to a crisp. This can happen, however, only when one looks at the sun directly or in a mirror. If one holds a pin between the sun and the eye and looks at the pin, although the sun is in a direct line with the eye and although its rays are entering the eye, the eye is not hurt, because the rays are not focused inside the eyeball. This is the wonderful property the lens has, that of focusing objects at different distances. The means by which it does this are its power to change its curvature.

Very Thoughtful.

Mrs. Comler (on a tour of inspection through her friend's house)—Gracious! Why do you have such a high bed for your little boy? Mrs. Houseler—So we can hear him if he falls out. You have no idea what heavy sleepers my husband and I are.—Chicago News.

It is estimated that nearly 70,000,000 animals are killed annually for the sake of their fur.

What Is Uric Acid?

THE CAUSE OF RHEUMATISM, GRAVEL, AND SUDDEN DEATH.

Ever since the discovery of uric acid in the blood by Scheele, in 1776, and the fact that it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. Because of its overabundance in the system it causes backache, pains here and there, rheumatism, gout, gravel, neuritis, and so on. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and completely eradicate this uric acid from the system. "Anuric" has proved to be 37 times more potent than Milla, and consequently you need no longer suffer from muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send to Dr. Pierce, of the New York Hotel and Special Institute, Buffalo, N. Y., for a pamphlet on "Anuric," or send 10 cents for a trial package of "Anuric" Tablets. If you feel that tired, worn-out feeling, backache, neuralgia, or if your sleep is disturbed by too frequent urination, go to your best drug store and ask for Doctor Pierce's "Anuric" Tablets.

Doctor Pierce's reputation is back of this medicine and you know that for the blood and his "Favorite Prescription" for the ills of women have had a splendid reputation for the past fifty years.

Doctor Pierce's Pellets are unequalled as a Liver Pill. One tiny Sugar-coated Tablet a Day. Cure Sick Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels.

The Sick

Mrs. C. A. Shyrook of Mt. Vernon was taken from Mountbuilders Park to the E. C. O. train yesterday morning in the Bradley ambulance.

Guy Miller was taken from the Newark Sanitarium to his home, 58 Union street in the Bradley ambulance yesterday.

Mrs. W. G. George was taken to the City Hospital to her home 242 Race street late Saturday afternoon, in the Bradley ambulance.

Miss Grace Clark was taken from the office of Dr. U. K. Essington to her home at 35 North street Saturday afternoon in the Bazler ambulance.

Every Day Etiquette

"Mother when is the proper time to send flowers to a funeral and what should I write on the card?" asked May.

"Flowers may be sent any time before the funeral, only be careful to have them arrive several hours before the service, as it is most disconcerting to have florists' boxes coming in at the last moment."

"The card alone is sufficient. You may pencil 'with sincere sympathy,' however, if you like," answered her mother.

Our Boys and Girls

Your baby should spend most of its indoor life in a nursery free from damp, exposed to sunshine and with free ventilation. There must also be freedom from dust gathering carpets and furniture and filth harboring cracks in the floor. There must be absolute cleanliness in every condition surrounding the child's life.

It's bed must be far enough away at night from that of the adult's to avoid breathing their breath, avoidance of currents of air to avoid rheumatism, painted toys on account of possible poisoning, the avoidance of wooden or feather toys.

You should weigh the infant carefully each week, on a correct standing scale, to determine if it's gain is what it should be, if properly fed. Unless there is some definite indication a child should be bathed every morning in water adapted to its vitality, never so cold as to cause blueness or cold extremities, or so hot as to prove injurious.

A surprise was given Mrs. W. E. Esterbrook of Oxford, when her sister, Mrs. Robert Welch of Pierson, Fla., who she had not seen for fifty years, walked into Mrs. Esterbrook's home.

Wall Street	
(Associated Press Telegram)	
New York, Aug. 28.—Events over the week end, particularly the impending railway labor crisis and Italy's declaration of war upon Germany, found but slight reflection in the stock market at today's opening. Initial prices were irregular and mainly lower but declines, except in rails and motors, showed no material alteration from last week's final quotations. Losses among rails and motors were fully offset by gains in	

shipping shares, especially marines, while crucible steel and Mexican petroleum constituted the strong specialties. United States steel was reactionary and secondary prices indicated professional pressure.

Values suffered steady depreciation in the first hour, steel making an extreme decline of 1 1/2 points with 1 to 2 cents for Motors, Willys-Overland being the chief element of weakness. Crucible lost all its gain and an additional 1 1/2 point with 1 to 3 point reversals in Onondria Alcohol, Colorado Fuel, General Electric, Westinghouse, American Can, Republic Steel and leading equipments. Coppers were comparatively firm but Marine forfeited early advances and leading rails were lower 1 to almost 2 points. Fractional rails were registered at midday. Bonds were lower.

Marines continued to dominate the leather dealings with a new higher record for the common. The closing was irregular.

Stocks were subject to much irregularity today, the railway provoking further professional selling of rails and other investment issues.

Chicago Grain

(Associated Press Telegram)
Chicago, Aug. 28.—Prices broke as much as 5 1/2 cents a bushel today chiefly as a result of a declaration of war by Rumania. The prospect of a general railway strike in the United States formed an additional element in depressing the market but by far the greater part of the mammoth sales that were witnessed came about owing to the assumed chance of a quicker conclusion of the European war. It was also inferred that the entrance of Rumania would favor the opening of the Dardanelles and the release of Russian wheat to compete with supplies from America.

Opening wheat prices, which

Slide down under tree.

ranged from 1 cent to 8 1/2 cents lower were generally the lowest reated with Sept. at 1.44 to 1.49 and Dec. at 1.45 1/2 to 1.52. Subsequent rallies lifted the market 3 cents to 3 1/2 cents from the bottom.

Corn held comparatively steady. Sellers were not numerous. After opening 1-8 to 1-2 cent lower, the market underwent moderate further sag.

Oats were governed by corn. Price changes were downward but not out of ordinary limits.

Provisions averaged lower with grain. The market though, had a neglected appearance.

Chicago Grain and Provisions

(Associated Press Telegram)
Chicago, Aug. 28.—Closing:

Brazil owes its wealth in coffee to a monk who planted two seeds in a monastery garden at Rio de Janeiro in 1724 when the plant spread throughout the country.

A train of engine and two passenger cars that recently fell through a bridge in Oklahoma is sinking in a quicksand bed. A like accident in the same state in 1904 caused the death of 76 passengers in a car that was engulfed so rapidly they had no chance to make their escape.

Valuable Facts All Should Know

Breathing.
Breathe through the nose, as this method will warm and moisten and purify the air. Breathing through the mouth will not. Colds, so called, are contracted by mouth breathing.

Feed Fat People.
Don't take fat reducing medicines if you are too stout. Cut down your diet, get out of door exercise, and you will assume normal lines and weight. Avoid sweets, eggs, cream, fat meats and especially potatoes.

For Insomnia.
Drink a generous quantity of water then half an hour later eat slowly a paprika or red pepper crustless sandwich with butter, half an hour before bedtime. It will draw the blood from the head to the stomach, stimulate the stomach and rest the brain.

Drawing.
Lay the body face downward, face turned to one side so as not to prevent breathing. Extend arms above head. Kneel astride the buttock, place your hands on the short ribs and alternately press down with the weight of your shoulders and release twelve to fifteen times to the minute. Do this for an hour if necessary. When natural breathing is restored rub legs and body toward the heart to stimulate circulation.

Jellied Meat and Vegetables

Cook a cupful of stock, a cupful of hot water and a little beef extract, with a tablespoonful each of minced onion and parsley, for five minutes. Soften a tablespoonful of gelatin in cold water and pour the hot stock over it. Stir until dissolved, then strain. Place alternating layers of thinly sliced cold chicken or lamb in a plain mold, with cold cooked peas and carrots cut in tiny cubes. Add a sprinkle of lemon juice to each layer of meat and pour the jelly over all. Set on ice or in a cool place until the jelly is firm. Serve, evenly sliced, with lettuce, watercress or parsley.

FOR SALE—REAL ESTATE

New 7 room modern story and half bungalow, six miles from Newark, on Granville pike. Address H. W. Shirk, R. D. 3, Granville, Ohio 9-23-61.

DON'TS FOR MOTORISTS

- Don't overcrowd your car.
- Don't load up with supplies you will not need.
- Don't start with a car that is not in first class running condition.
- Don't try to do the impossible.
- Don't race with locomotives.
- Don't fail to take an extra tire or two along.
- Don't disregard local regulations, even if they seem unreasonable.
- Don't neglect to prepare for rain and cold.
- Don't forget safety first, last and always.

Statuary Hall

The national statuary hall was formerly the old hall of the house of representatives in Washington. It was established by act of congress on July 2, 1904. The president was authorized to invite each state to contribute to the collection to be formed with two statues, in either marble or bronze, of deceased citizens of the state whom "for historic renown or for civil or military services," the state would consider as worthy of commemoration in this national hall of statuary. About twenty-five states have contributed statues to the hall, some of them only one.

FOR THOSE WHO WISH TO TEACH

Questions Put to Applicants For County Certificates.

EXAMINATION HELD AUG. 25.

Prepared by the State Superintendent of Public Instruction To Test the Mental Qualifications of Those Who Seek Positions as Teachers in the Public Schools.

Following is the list of questions as prepared under direction of the state superintendent of public instruction and submitted at the county examination for teachers Aug. 25 for elementary school certificates:

ARITHMETIC.

- Carefully go over your method of teaching interest involving years, months and days, using this problem. Principal \$720, rate 7%, time 3 yrs., 5 mo., 24 days.
- Granting 1 cu. ft. of water weighs 62½ lbs. what is the weight of water that falls on one acre of land during a rainfall of 1½ inches?
- \$3000 is the price of 8 mo. If \$1200 is paid in 5 months, and \$900 in 6 months, in equity how long after maturity should the balance be paid?
- A merchant bought goods at 4—10—5 off. His total discounts amounted to \$286.72. What had been the listed price of the goods?
- Granting that the merchant in No. 4 would receive these discounts by paying cash, what would be his rate of gain by paying cash counting the time as 90 days?
- A merchant sent an agent \$1302.03 with which to purchase steel rails. The agent was instructed to retain his commission at 3½%. How much money did the agent expend for steel rails?
- How many tile 3 in. in diameter will be required to discharge as much water as three 9 in. tile, all running at full capacity?
- What is the capacity in gallons of a hollow sphere whose diameter is 15 inches?

HIGH SCHOOL AGRICULTURE.

- How would you explain how the root hairs of a plant take up the food needed by the plant?
- What is the effect of drouth upon a potato patch? What can be done to minimize this effect?
- What are the principal sources of injury to wheat? Discuss one of these at some length.
- Why is hay usually sown in mixtures? For what purpose is timothy preferred? Clover?
- Describe one of the most troublesome bacterial diseases of plants.
- Make a list of points for grading yellow dent corn.
- Give a rough diagram of a cream separator.
- What are the characteristics of a model dairy barn?

READING.

- Give an outline of a method of teaching beginners to read or (if you do not teach primary pupils) state the aims and something of the corresponding methods in teaching reading in the intermediate or advanced grades. (50%)
- The examiners may give such additional oral examination in reading as they see fit. (50%)

AGRICULTURE.

- Give some idea of the effect upon the plant and the soil produced by a crop of clover.
- How can you prove at what depth it is best to plant some particular types of seeds? Give the proper depth for planting some of the common seeds. What general rule is sometimes given for all types of seeds?
- What are the principal legumes planted? For what purposes?
- How is the purity and viability of seed wheat determined?
- Describe three principal classes of soil, stating the composition and characteristics of each class. How can you tell to what class a given sample of soil belongs?
- Give directions for the protection and preservation of manure.
- What are the sprays used for apple trees and what are the proper times for spraying?
- Give a number of advantages to be gained by practicing crop rotation.

HISTORY.

- When and where was the first settlement by the whites made in Ohio?
- When was Ohio admitted into the Union? Who was the first Governor of the state? What was the first capital?
- Name, locate and give results of three battles fought in Ohio.
- Name four state officials of Ohio, and their official positions.
- When did the Emancipation Proclamation become effective? State the main provision.
- In what way did the United States obtain the right of way for the Panama Canal? Who is the present Governor of the Canal Zone?
- Of whom, when, and for how much, was Alaska purchased? Was this a wise purchase? Give reasons for your last answer.
- Outline for class work the War with Mexico, giving in general the conditions of the treaty at the close of the war.

THEORY AND PRACTICE.

- Take two of the groups below entire.) Group A. (Based on Parker's The History of Modern Elementary Education.)
- What were the principal reasons for the establishment of elementary schools down to the nineteenth century? What did they usually teach?
- In what ways and for what reasons has the English elementary school system been backward?
- What are the leading practical Herbartian ideas?
- Show how Pestalozzi's application of "From the simple to the complex" was a hindrance in developing good

reading methods, or explain how it is contrary to the facts of psychology. Group B. (Based on Morchouse's The Discipline of the School.)

- State one way in which class loyalty may be utilized for purposes of discipline.
- Show the importance of having your school discipline on something else than loyalty to yourself.
- How can disorder during recreation periods be avoided?
- What is the first requisite for success in determining a pupil's motives? Suggest other helps to that end.
- Group C. (Based on no particular text.)
- Make a program for the first morning's session in a new school, preferably a school of all grades.
- What are some of the means of improvement of the community which a teacher may start upon?
- What are the causes of tardiness? How should they be treated?
- Name different classes of questions and state which kinds are best and why.

GEOGRAPHY.

- Connect the names of ten counties of Ohio with historical events.
- Give names, county seats, and chief products of the counties that bound your county.
- Give titles of the books on geography that you would like to have in your school library.
- Write not fewer than one hundred words on "Geography and Life".
- State specifically how you have been helped by your teaching of Geography by your district superintendent.
- Name ten places in the world that you would most like to visit and tell why.
- What books have you read in the past year that helped you in your teaching of Geography?
- What articles have you read in either of the educational journals of Ohio that gave you help in Geography?
- In what ways have the books of the Reading Circle been of service to you in Geography?
- Just how do you hope to make your teaching of this subject better next year?

GRAMMAR.

- Explain fully how you proceed when your pupils say "have saw", "might of went", and "between you and I".
- Name the text-books in grammar with which you are familiar and point out the superior merits of each.
- What methods do you employ to cause the study of grammar to function in correct and elegant English?
- Write a sentence containing an interjection, a relative clause, and a prepositional phrase.
- Write a sentence with a substantive clause as subject or object.
- Write five sentences using a different form of lie (to recline) or of lay.
- Write not fewer than one hundred words setting forth the advantages of the study of formal grammar.
- Write not fewer than one hundred words explaining your conception of language study.
- As a specimen of your best English write an appreciation of one of the books of the Reading Circle for the past year.

PHYSIOLOGY.

- Outline the topics which should be covered in Physiology in some one grade. How much time should be given it in that grade?
- Explain clearly the dangers from an uncleaned wound. What is an antiseptic?
- What in general is the route taken by the blood in its circulation? About how long does it take to make the circuit?
- What connection is there between the nose and the ears? What are some of the effects of the connection?
- Explain just what the treatment of the patient should be in some particular sort of emergency.
- Tell just what you try to get the pupils to do to improve themselves physiologically or hygienically in some respect, and explain how you get them to do this.
- Describe the organ or organs of some one of the special senses.
- What are the purposes of the stomach and how does it attain them?

ORTHOGRAPHY.

- Repeat 3 rules of spelling, other than formation of plurals, and illustrate each.
- Make, name, and illustrate with a word for each, all the diacritical marks.
- Use in words and mark with diacritical marks all sounds of a.
- Define prefix, suffix, digraph, diphthong.
- Make a list of letters, one or more of which are absolutely essential in the spelling of words. (60% for first five).
- Mark for pronunciation: connaisseur, encore, exemplary, caisson, Bedouin, acoustic, privacy, placard, nauseous, legend. (10%)
- To be detached, dictated by examiner and rewritten by applicant. Grading to be done on spelling and capitalization. "The quality of mercy is not strained. It droppeth as the gentle rain from heaven. It blesseth him that gives and him that takes." "Tis mightiest in the mightiest; it becomes the throne monarch better than his crown: His scepter shows the force of temporal power, The attribute to awe and majesty, Wherein doth sit the dread and fear of kings. But mercy is above this scepter'd sway; It is enthroned in the heart of kings; It is an attribute to God himself." (30%) —Shakespeare.

LITERATURE.

- Name the ten best novels you have read in the order of your preference.
- Give titles of ten books you would recommend for pupils of the seventh and eighth grades.
- What books of the Pupils' Reading Circle have you recommended for your school?
- Name five of your favorite authors and three works of each.
- How many books have you read during the past year? Name some of the best ones.
- What methods do you employ in selecting books for your private library?
- What proof do you give to yourself or others that your taste for literature is improving?

MILITARY HONOR FOR CORP. LUCAS; BURIED TODAY

The body of Corporal Harry Lucas, of the Cleveland Grays, was buried in Cedar Hill cemetery this morning with military honors. Corporal Lucas was drowned in Lake Erie while on a leave of absence Thursday afternoon. Rev. Calvin C. Hazlett conducted the funeral services at the First Presbyterian church.

Captain Connolly and a company of 68 men came to Newark from Camp Willis this morning in a special train over the Ohio Electric and arrived at 10 o'clock. They were met by Captain F. C. Steele of this city, who formerly was a member of the company. They formed from the train and marched up Third street to the church where they heard the services. Six members of the company acted as pall-bearers and a firing squad of eight preceded the hearse to the cemetery. The Cleveland Grays were in service uniform and carried side arms only, the firing squad being equipped with guns. The firing squad fired three volleys over the open grave. The bugler sounded taps.

The funeral service was very beautiful and the church was filled with the many friends who mourned the death of Corporal Lucas and who sympathized with Mrs. Lucas and her son Power Lucas, brother of the deceased.

The Shine Girl. 8-26-d-1t

New Justice of Supreme Court

Judge John Hessin Clarke of Cleveland, who succeeded Charles E. Hughes as associate justice of the United

Photo by American Press Association.

JOHN H. CLARKE
States supreme court, has been a life-long Democrat. At the time of his appointment he was federal judge for the northern district of Ohio. Judge Clarke is fifty-nine years old and a bachelor.

What to Do For Insect Bites

The most common bites or stings are those of the bee, wasp, yellow jacket, spider, horse fly, yellow fly, red bug or chigger, flea, mosquito and bedbug.

In case of a sting of any kind the first thing to do, of course, is to remove the sting. This can best be done with the point of a knife or needle, but care should be taken not to break the skin for fear of infection. Then the next best thing perhaps is to apply ammonia water or soda water to the affected parts.

In the case of bites, as well as of stings, when the sting is removed, as a rule, a paste of common baking soda applied to the affected parts or these bathed in ammonia water is all that is necessary. Where the poisonous effect is severe, however, send for a doctor. In the meantime the patient should lie down and keep quiet.

An application of a 50 per cent solution of a saturated solution of potassium permanganate, which you get at the drug store, is very efficient for insect poisons and for the poisons of plants, too, such as poison ivy and sumac.

Cheesecakes.

Cheesecakes are made by adding egg, sugar and flavoring to fresh curd, such as is used for cottage cheese. Add an egg to a cupful of curd, beat smooth and beat in half a cupful of sugar and a piece of butter the size of a walnut. Flavor with vanilla, nutmeg or any other spice. Line a pie plate with paste and fill with this mixture. Bake without a top crust.

Newark Rumanians Are Pleased With War Move By Fatherland

"Rumanians living in Newark were pleased to read the bulletins announcing the declaration of war on Austria-Hungary," said Augustine Sussan, one of the leaders of the Rumanian colony here. "Many Newark Rumanians have friends or relatives in eastern Hungary, and these Rumanians have long felt that they should be free from the Austro-Hungarian rule. They now believe the time has come to rid themselves of the yoke of that empire and again come under the rule of their own people."

GRANDSON OF IRVING IS DARING AIRMAN

Capt. Malcolm McLean Irving.

Captain Malcolm McLean Irving, a member of the British Royal Flying Corps, is a grandson of Henry Irving, the illustrious actor for more than sixty years the favorite of theatre goers and whose son, Henry Irving II, succeeded him in his fame and popularity. Malcolm McLean, son of Henry Irving II, is winning fame in another field of endeavor. A recent daring flight, in whose course he was wounded, has won applause for his bravery and he is mentioned for the N. C. O. decoration.

Riding a Colt.

If a young colt is ridden or driven several miles over cobblestones or even over a pile of gravel road he may be stove up for life. A colt's legs and feet are filled with soft and tender bones, and his muscles and sinews are easily stretched and torn. Bones are not iron, and they easily crumble under strain and pressure, and tendons often pull loose from where they are grown to young bones, and they cannot be grown back again. It takes a colt of almost from legs even at two years old to carry the lightest boy and run fast as far as a mile.

CHURCHES OF CHRIST OF LICKING COUNTY IN ANNUAL MEETING

The churches of Christ of Licking county held their annual meeting at Mountbuilders park Sunday.

There was a large attendance and the meeting was a great success in every particular.

The day's services commenced with a large Sunday school session. Rev. L. N. D. Wells, preached two scholarly sermons on "The Law That Liberates," and "Duty or Dinner First."

The congregational singing and the music furnished by the male quartette, Messrs. Painter, Keller, Sutton and Richter, were also features of the meeting.

A business session was held when reports of committees on resolutions, time and place of the next annual meeting, and on nominations were made.

A souvenir in the form of a resolution, handsomely printed and framed was presented to Rev. W. D. Ward by the churches.

The time and place of the next meeting was tentatively made but the definite report will be announced later.

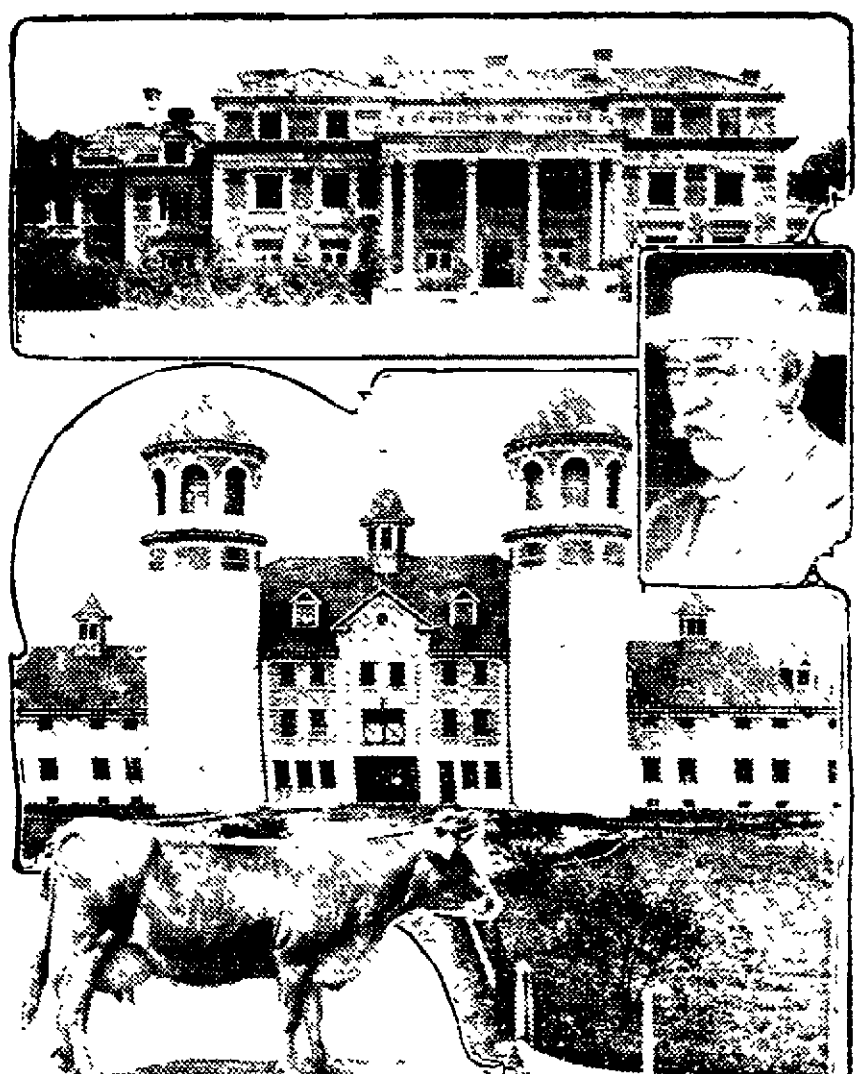

The officers elected for the ensuing year are: president, H. H. Carter, Lebanon; vice president, C. L. Riley, Newark; secretary, Elsie Hobbs, Purry; and Mrs. Rose Wilson, Newark treasurer.

The day's work closed with a large Endeavor session held in the pavilion hall.

\$35,000 COW JUST ONE OF THE SIGHTS ON MULTI-MILLIONAIRE'S MODEL FARM

Ohio C. Barber, his home at Darberton, O., his palatial cow barn and Murne Cowan, his \$35,000 Guernsey cow.

Ohio C. Barber, multi-millionaire match king, is spending millions of dollars in the development of his model farm at Darberton, Ohio. One of the interesting sights to be seen at this farm is Murne Cowan, valued at \$35,000 and the champion Guernsey cow of the world.

WILL YOU HELP

The Newark Chamber of Commerce

Secure accommodations for the Delegates to Conventions who will be coming to Newark this fall and next year?

The Publicity and Convention Bureau must have the information NOW so it can arrange the names in alphabetical order and mail them to the delegates when they arrive.

While Newark has the best hotel accommodations in any of the big people in the State, these hotels will be taxed to their limit. The Bureau has some very large Conventions coming, among them are the Ohio State Grange, The United Commercial Travelers, the Odd Fellows' Encampment, etc.

The Manager says it is up to the Publicity and Convention Bureau to provide the necessary accommodations. We can not do this unless you cooperate with the Bureau by filling out the COUPON below and mail it TO-DAY to THE NEWARK CHAMBER OF COMMERCE, NEWARK, OHIO.

REQUIRE SIXTY YEARS TO COMPLETE ALL COURSES.

The wide range and vastness of the subjects in which instruction is given at The Ohio State University is shown by the fact that to take every study that is offered by every college would require nearly 60 years. How much of the world's knowledge is acquired by the average college graduate of a four years' course is naturally comparatively meager. His, however, is the act of specializing, where each has his own part to fill and is not expected to know everything.

It also shows the diversified interests and the wide range of thought and mental activity of the people of this day and generation.

CAR OF MYSTERY IN CHICKEN THEFT FARMER GETS PAY

A landlady of a Walnut street resort, a negro cook, a taxicab, six chickens and an indignant farmer, furnished the material for a conference in Mayor Bibbee's office late Saturday afternoon.

A farmer, residing west of the city, reported to police Friday that six chickens belonging to him had disappeared from their roost last Thursday night.

A mysterious taxi cab furnished a clue.

Chief Sheridan, following an investigation, located the driver of the mysterious car, who confessed that he had carried the proprietor of the Walnut street resort and her cook in his machine to the farm where the chickens were stolen.

In the meantime, police saw the woman endeavoring to settle the matter with the farmer and prevent him from swearing to an affidavit. But although the chickens were well paid for she was summoned before the mayor.

She was given until this evening at 6 o'clock to leave town.

SON TAKES UP PRACTICE OF DR. MITCHELL

Dr. Louis A. Mitchell, son of the late Dr. John A. Mitchell, has taken over his father's practice and will continue the business. Dr. Mitchell received his college training at Denison university and Boulder, Colo., and later, was graduated from the medical university of Minnesota, in 1915.

For several months following his graduation from medical school he was assistant to Dr. Pitt, in Minneapolis. He was also connected with hospital work for eight months.

CHARGES PERJURY AGAINST MAN WHO CAUSED ARREST

Harry Horwitz, arrested several days ago on a charge of perjury, professed by Edward Loreman, will have a hearing before Mayor Digbee Wednesday afternoon at 2 o'clock.

Horwitz is charged with giving false and malicious testimony before Justice Fletcher S. Scott, August 11, in connection with Loreman. The latter was charged with making false representations concerning his connection with an Akron banking firm and for which he was haled into Scott's court.

Horwitz is out on \$1000 bond.

HOLSTON KILLED BY JAMES RILEY; MOTIVE REVENGE

Details of the murder of W. L. Holston, nephew of Mrs. S. E. Pfifer, 19 First street, who was shot in his poolroom in Chattanooga, Tenn., last Tuesday, were received here today.

Mr. Holston, who was a former member of the Chattanooga police force, was shot to death by James F. Riley. The tragedy occurred in Holston's poolroom, 135 Market street and the weapon used was a double-barreled shotgun. Riley, who is a brewery worker made no attempt to escape and was taken into custody a short time later.

Riley's reason for his act was that Holston abused and kicked him and also called him foul names. This trouble seems to have occurred about three weeks ago, according to Riley's story. He claims that Holston came to the place where he was working and it was then that he insulted and beat him (Riley).

Mr. Holston was not known in Newark.

THIS IS MY DUTY.

To use what gifts I have as best I may;
To do to some weaker brother
What I can;
To be as blameless as the close of day;
As when the duties of the day be-gone;
To do without complaint what must be done;
To grant my rival all that may be just;
To win through kindness all that may be won;
To fight with knightly valor when I must.

—B. E. Kiser.

More Literal Than Literary.

A lady was entertaining her daughter's caller, who was just back from a summer outing. The conversation had been somewhat spasmodic and finally she decided to try him on some of the new books.

"Have you read 'Freckles'?" Mr. Johnson?" she ventured.

"No, ma'am," he stammered blushing, "none are the brown kind."

More than 12,000 students are taking course in agriculture in the colleges of the United States.

The Grip of Evil. 8-26-d-1f

ADVENTISTS

CLOSE STATE CONFERENCE WITH SERMON ON CHRIST'S SECOND COMING.

During Camp Meeting Conference Raising \$40,000 For Missions—Converts Baptized in Creek.

During a big revival service Saturday a great storm struck the Adventists' camp. It looked very serious for a time, but while one large tree was broken off and blown down, not a tent was damaged nor any body hurt, and in spite of the storm the meeting went on and many were converted.

At the 3:30 morning meeting yesterday, after a most inspiring talk on the mission fields of the Orient by Elder G. F. Enoch, of Bombay, India, an earnest appeal was made for mission funds and there was raised the sum of \$1,100 before the meeting closed. This with the two Sabbath school ones of the camp, which amounted to \$800, with other offerings, made a total of \$7,400 given to foreign missions by the camp.

Twenty-five converts were immersed at the sixteen-street bridge yesterday afternoon. The ordinance of baptism was administered by Elder J. Marietta of Dayton, and Elder C. W. Weber of Cleveland.

Yesterday afternoon the Adventists held a temperance rally. Prof. C. S. Longacre of Washington, D. C., National Legislative Temperance secretary of the Seven-day Adventist denomination, addressed a great gathering of people on the subject, "America's Greatest Menace to Human Society." He said in part:

"When we consider the unspeakable sorrow, disgrace, debauchery, immorality, crime, poverty, wretchedness and ruin which the liquor traffic brings annually to hundreds of thousands of innocent wives and children in the homes of the devoted who worship at the altar of Prochus, and to so many at large, we believe that the civil government has a constitutional right to more, it has a constitutional obligation to adopt measures and to enact laws which will guarantee to each individual the unmolested enjoyment of his God-given inalienable rights to life, liberty, and the pursuit of happiness—all of which rights are trampled under foot with impunity by those who are engaged in the manufacture and sale of intoxicating beverages.

Over 2,000 wives are murdered every year in this country by drunken husbands; more than 2,500 innocent children are murdered every year in this country by drunken fathers; more than 3,000 helpless children are forsaken and thrown upon public charity every year in this country by drunken parents; more than 50 per cent of all murders, more than 75 per cent of all crimes, more than 85 per cent of all paupers and more than 80 per cent of all insane in this country are traceable either directly or indirectly to the effects of the liquor traffic. Under such conditions the federal constitution and the American flag are powerless to defend and protect its citizens.

"The honor in life claims to be a great national tax-raiser and revenue-produce, whereas it is only a tax-collector and revenue consumer. The man who gets the money over the bar is the revenue-producer and the man behind the bar is only a revenue collector. It takes five times more revenue to take care of the criminals, paupers, insane, and orphans for whom the saloon is responsible than the amount of revenue paid to the government by the saloon, breweries and distilleries.

"The American saloon is a human parasite. It produces suicides, homicides, epilepsies, paralytic, convulsions, gaspedies, and burns out insides. It is Uncle Sam's great tapeworm that is fastened itself upon the vital organs of the nation. Like the tapeworm, the liquor traffic constitutes a great organism made up of many composite joints. It has the grill-joint, the saloon joint, the red light joint, the gamblers' joint, the white slave joint, the thug's joint, the criminal joint and the devil's joint. The only remedy for this national disease is a national crushing of the head of this hideous monster."

Resolutions covering a number of subjects were adopted at the Sunday meetings. In one resolution the Adventists pledged themselves to vote against the liquor traffic at every opportunity and favored nationwide prohibition. Another resolution thanked the Newark daily papers for courtesies extended during the conference sessions.

A memorial petition, congress-opposing the traffic which threatens the freedom of the press, four religious legislation and establish a legal religion in the United States and approved opposition, expressed in a report on Sunday mails, compelling observance of Sunday by federal employees.

The committee on license and credentials presented the following report:

Rate of Seeding Wheat.

Experiments conducted by the Ohio Experiment Station during 17 years and including eight different rates of seeding with 10 varieties of wheat, show that 8 pecks to the acre gives the greatest net yield of grain. Figures given in the Station's Monthly Bulletin for August point in general to a gradual increase in yield from the use of 3 pecks to 9 pecks per acre, but seeding more than 8 pecks to the acre has not paid for the extra seed.

Crop Rotation Pays.

The value of crop rotation in maintaining soil fertility is shown by wheat yields at the Ohio Experiment Station at Wooster. Where unfertilized wheat has been grown continuously, year after year, it has yielded only 7 1-2 bushels per acre, as an average for 20 years. By growing the crop in a 5-year rotation of corn, oats, wheat, clover and timothy, this yield has been increased 42 percent. In a 3-year rotation of corn, wheat and clover, a gain of 50 percent in yield has been realized.

On manured land wheat in continuous culture has yielded less than 18 bushels per acre. In the 5-year rotation it has given 22 bushels per acre where manure has been applied to this crop, and in the three year rotation wheat following manured corn, the wheat itself receiving no manure, has averaged 20 bushels per acre.

Cows Need More Care.

"Heavier feeding and extra care of cows will pay more than half the dairy herds of Ohio," says C. C. Hayden of the Ohio Experiment Station, in its August Monthly Bulletin. His conclusions are based on investigations with cows in the Station dairy herd.

One cow given extra feed and care produced 80 percent more milk and 67 percent more butterfat than in previous years. This increase was produced at 77 cents less per 100 pounds of milk and 23 cents less per pound of butterfat. Another cow gave 87 percent more milk and 80 percent more butterfat than in former years. Her increase cost 57 cents less per 100 pounds milk and 15 cents less per pound of butterfat.

The lower costs are due to the fact that little extra time in feeding and caring for the animals is needed, and no more stable room or equipment is required for large yields than for small ones.

Willing To Fight It Out.

Recruiting officer—"So you want to enlist, do you?"

Irish recruit—"Yis, sor, for the duration of the war or longer if it last longer."—Grit.

The population within a 100-mile radius of Bristol is 10,000,000. Passengers and mails can be conveyed from the Royal Edward dock passenger station to London or Birmingham within two hours.

Arm Caught in Wheel.

J. F. Hauser, former Newark man, employed as boilermaker for the B. & O. company at Columbus, early Sunday morning had his left arm broken in a wheel of engine 1461. He was taken to Grant hospital. Hauser, while doing some work on the engine reached his arm through the spokes on the driving wheel. A hostler, who did not know Hauser was at work, moved the engine.

Man Killed.

The body of an unidentified negro was found last night lying along the B. & O. tracks, near Mine No. 6, Neff, O. The man had been struck by a train. The body was taken to Bellaire.

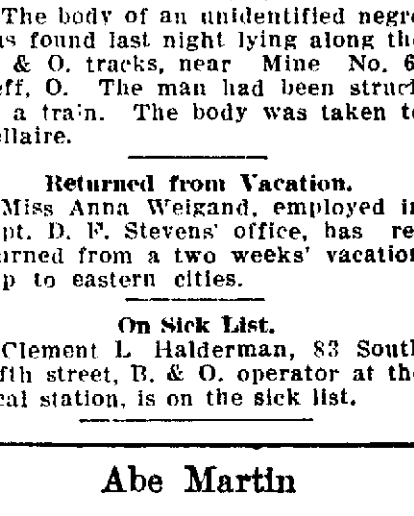

Returned from Vacation.

Miss Anna Weiland, employed in Supt. D. F. Stevens' office, has returned from a two weeks' vacation trip to eastern cities.

On Sick List.

Clement L. Halderman, 83 South Fifth street, B. & O. operator at the local station, is on the sick list.

TWO ARE KILLED, EIGHT INJURED IN AUTO RACE

Kalamazoo, Mich., August 28.—Two men were killed and eight others injured, one of them fatally when 11 of the 14 automobiles piled up at the first turn during the 100 mile race at Recreation Park here Sunday afternoon. The dead are Marjott Arnold, mechanic, Chicago, and Jack Peacock, driver, of Brooklyn.

F. E. Marquette, of this city was probably fatally injured having suffered a severe injury to the head and the left leg was broken in three places. He was mechanic for Peacock.

The accident occurred when Peacock's car, leading in the race, skidded and struck the fence at the first turn. It was overturned and thrown squarely across the track. Before track attendants could signal the other drivers 10 of the machines going at a terrific speed plowed into the overturned car. Five of them were completely demolished.

FOUR DIE GOING TO A FUNERAL

Wellsboro, Pa., Aug. 27.—Two men and two children lost their lives and four other persons were injured late last night when an automobile occupied by Earl Sherman and family of Endicott, N. Y., went over an embankment into the Tioga river near Covington, Pa.

The dead are Earl Sherman, 35, captain of fire police, neck broken; and Frank Perry, chauffeur, 32, drowned. Two daughters of Sherman, 2 1-2 years and 5 months both drowned.

VISITOR IN THE CITY IS VICTIM OF AN ASSAULT

Police today were searching for a young man who late Saturday night attacked and choked Miss Frances Warren, of Steubenville, Pa., on east Main street, near the Catholic church.

The man escaped in a dark alley when the girl screamed.

Miss Warren, police say, was on her way to 57 Oakwood avenue, where she is visiting, when the attack occurred. A man, whom she described to the police, was standing in the shadow of a tree, when he sprang out and grabbed her by the throat.

"I screamed and fought so hard that he let go of me and disappeared in a nearby alley," Miss Warren told the officers.

Neighbors in the vicinity of the attack called police headquarters and said a girl had been kidnapped. The patrol made a hurried run to the scene expecting to get a line on the kidnapper, and instead found the girl.

The girl is unable to assign a motive for the attack and police say the young man bears a good reputation. Two houses were searched last night and early this morning, but Miss Warren's assailant could not be found.

MANUFACTURE CHEMICALS.

"On account of the European war," said Prof. William McPherson of the department of chemistry of the Ohio State University, "the department has been unable to obtain certain organic chemicals used in the laboratories. These chemicals, obtained from foreign countries, were shut out with the opening of hostilities. Since then this department has kept men engaged in manufacturing the chemicals, and these home-manufactured ones now take the place of the foreign product."

A Daughter of the Home Tells of Newborn Happiness

How the Neal Treatment Brought Brightness to a Former Drink-en-slaved Ohio Home.

"The whole household is brighter and happier since he takes some interest in life."

So writes a daughter to the Neal Institute in telling what the Neal Treatment did for her father, and she added: "He is enjoying good health, is perfectly happy, and hasn't lost a day's work since he left the institute."

The Neal Treatment has brought happiness and increased prosperity into thousands of homes. These who drink to excess can quickly get rid of all desire for alcoholic beverages. Three days of the Neal Treatment will do this most effectually. Your own investigation is urged.

The Neal Treatment is a physician's purely harmless vegetable remedy, taken internally, with no dangerous hypodermic injections. There is no publicity.

For booklet, "The Neal Way," write or phone the Neal Institute, 1320 Main St., Columbus, Ohio. Other Neal Institutes located at Pittsburgh, Cincinnati and Cleveland.

What's become of th' donation parties for preachers that used t' be all th' rage? There wuz quite a scare here this mornin' when it wuz learned that a rejected suitor was in town.
